ABOUT RATES.**

A note on ad sizes: Many smartphones, tablets, and laptops feature high-definition screens, such as retina displays, that offer a higher ratio of pixels per inch, meaning some images may appear fuzzy on these displays.

In short, we encourage designing original ads at the Retina Ready (x2) sizes below.

Ad Unit	Display Sizes	Retina Ready (x2)
Leader Board	728 x 180	1456 x 360
Cube	300 x 250	600 x 500
Banner	700 x 250	1400 x 500

Files must be gif or jpeg, and no more than 60k. Please e-mail all ads directly to April McLynn at amclynn@rbr.com along with the click-through URL.
Call for available positions on Daily Newsletter and Website.

MATERIALS-DUE SCHEDULE: All ads or classified copy with instructions are due at least three business days prior to the posting date.

PLEASE NOTE: Recognizing the generally established principle that rapid-blink banners are a click-out factor with online viewers, animated ads should change faces at a rate no greater than every five seconds. Tile and banner ads must have either a solid-color background other than white or a thin line outlining the edges of the ad.
