Welcome to Activate Consulting's Technology and Media Outlook 2020

Each year, as part of the Wall Street Journal's WSJ TECH LIVE, our team analyzes some of the most important consumer trends, technology innovations, and industry dynamics to predict what's going to happen next and next after that.

2020 promises to be a pivotal year for everyone in the dynamic tech and media ecosystem.

We've taken a deep dive into many of the forces that will reshape the industry next year and for years to come: the splintering of social networks, the race for the last mile in eCommerce, the streaming video wars, sports gambling's explosive growth, the next wave of video gaming, and the changing world of digital marketplaces. There is also an extensive evaluation of music, podcasting, esports, emerging sports, the networked body, and digital consumer financial services. In addition, we analyze the phenomenon of 'Super Users' who will be increasingly important to every company in the industry. Finally, we assess the connectivity technologies that will unlock the next wave of technology and media growth.

As a firm, our work begins with the most important person in technology and media: The User. Understanding how people use technology and media experiences is the foundation of our thinking. You'll see extensive analysis of consumers' time, preferences, habits, and spending based on Activate's proprietary analysis and large-scale consumer research.

We know you'll find the results both provocative and useful, and look forward to a lively discussion.

Let's see where technology and media are headed in 2020!

Activate's analysis of consumer Internet and Media activities shows that multitasking leads to a 31-hour day for the average American adult, 12 of which are spent consuming technology and media

AVERAGE DAY BY ACTIVITY PER ADULT[1], U.S., 2018, HOURS:MINUTES

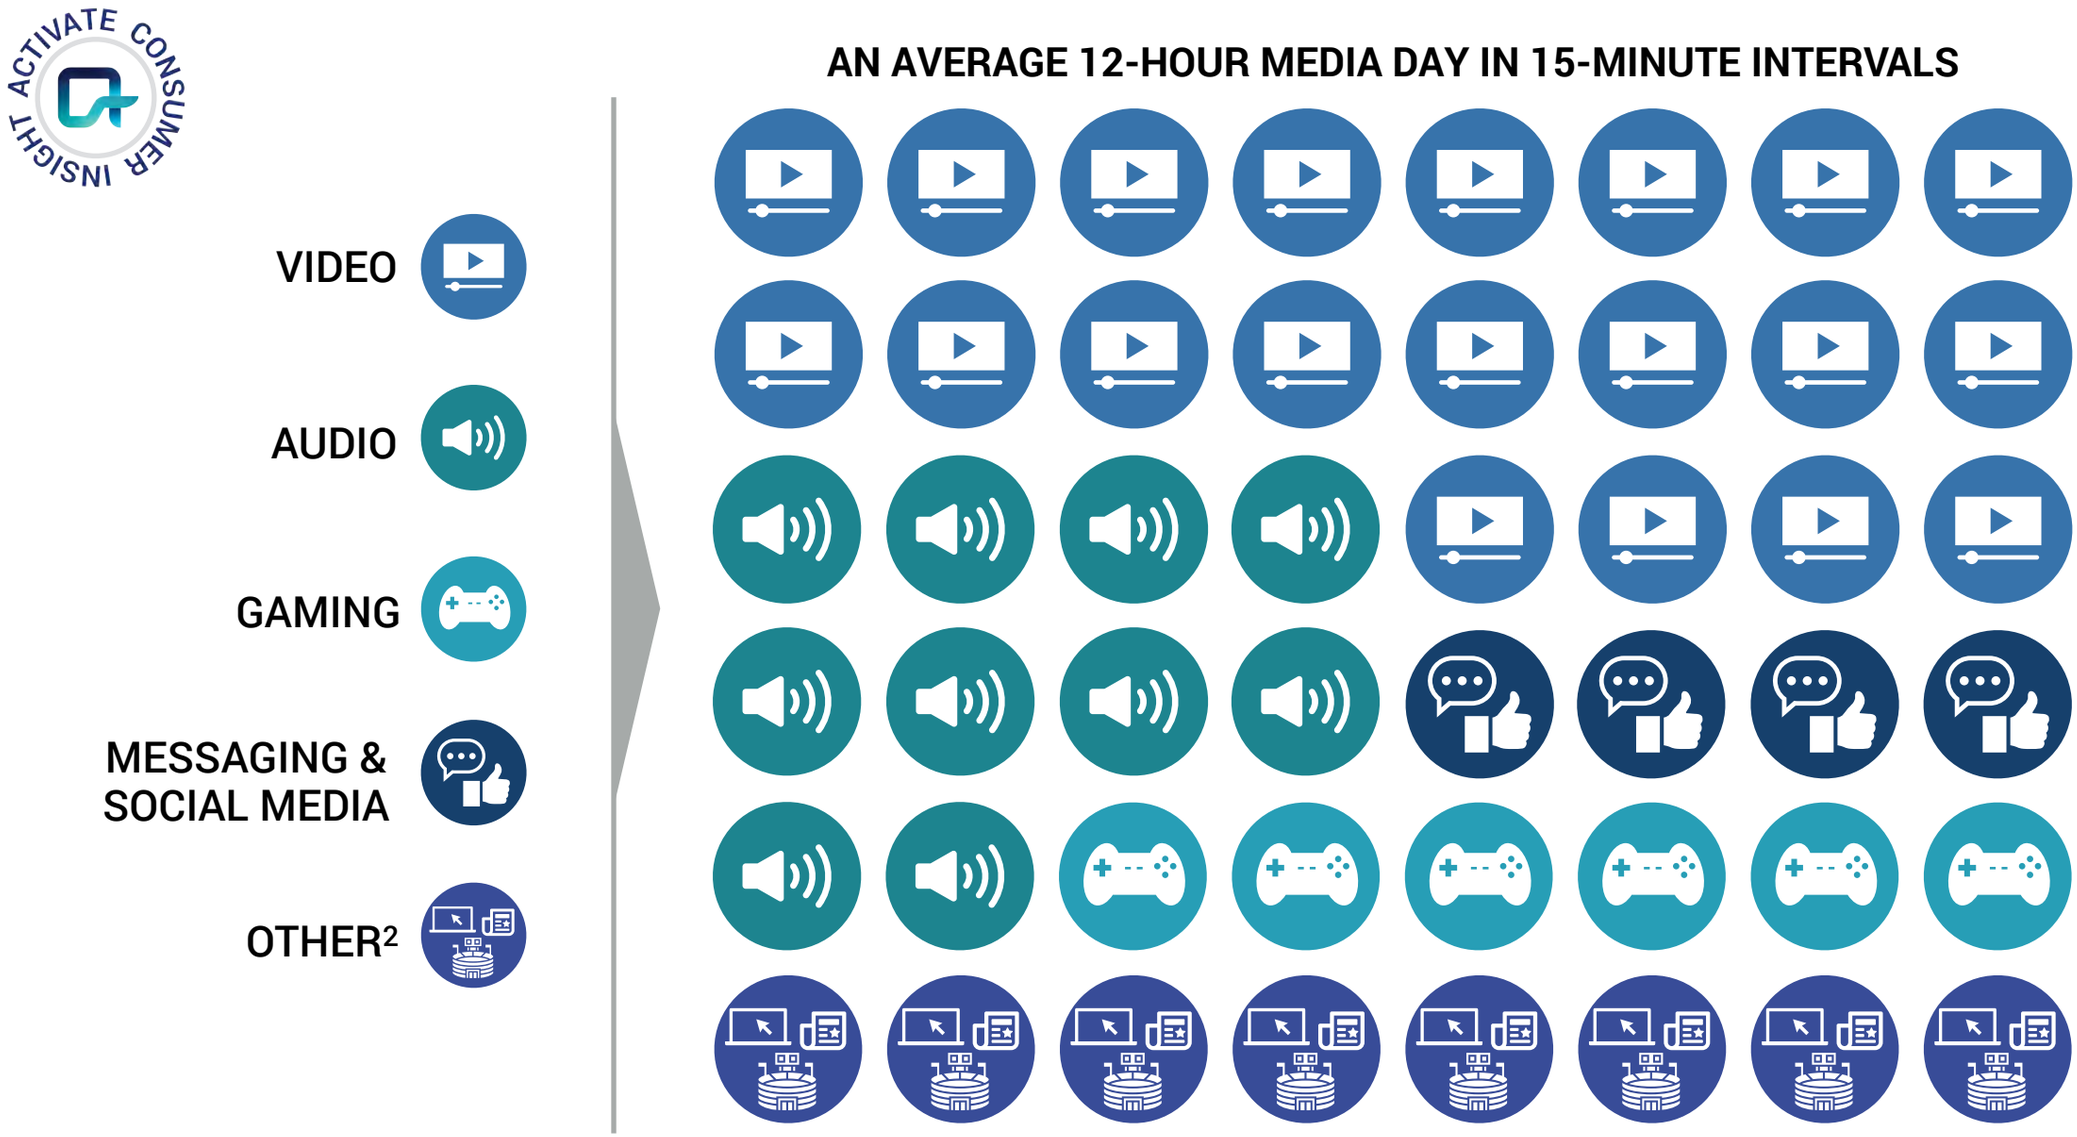

1. Behaviors averaged over 7 days.
2. "Other" includes media activities outside of listed categories, such as browsing websites, reading, cinema, live events, etc.

Sources: Activate analysis, CareerBuilder, Comscore, eMarketer, Edison Research, Fitbit, Gallup, Global Web Index, Interactive Advertising Bureau, National Sleep Foundation, Nielsen, Pew Research Center, ResMed, U.S. Bureau of Labor Statistics

At 41% on average, video captures the largest share of attention of the daily 12 hours of Internet and Media consumption

DAILY INTERNET AND MEDIA ATTENTION PER ADULT[1], U.S., 2018, 15-MINUTE INTERVALS

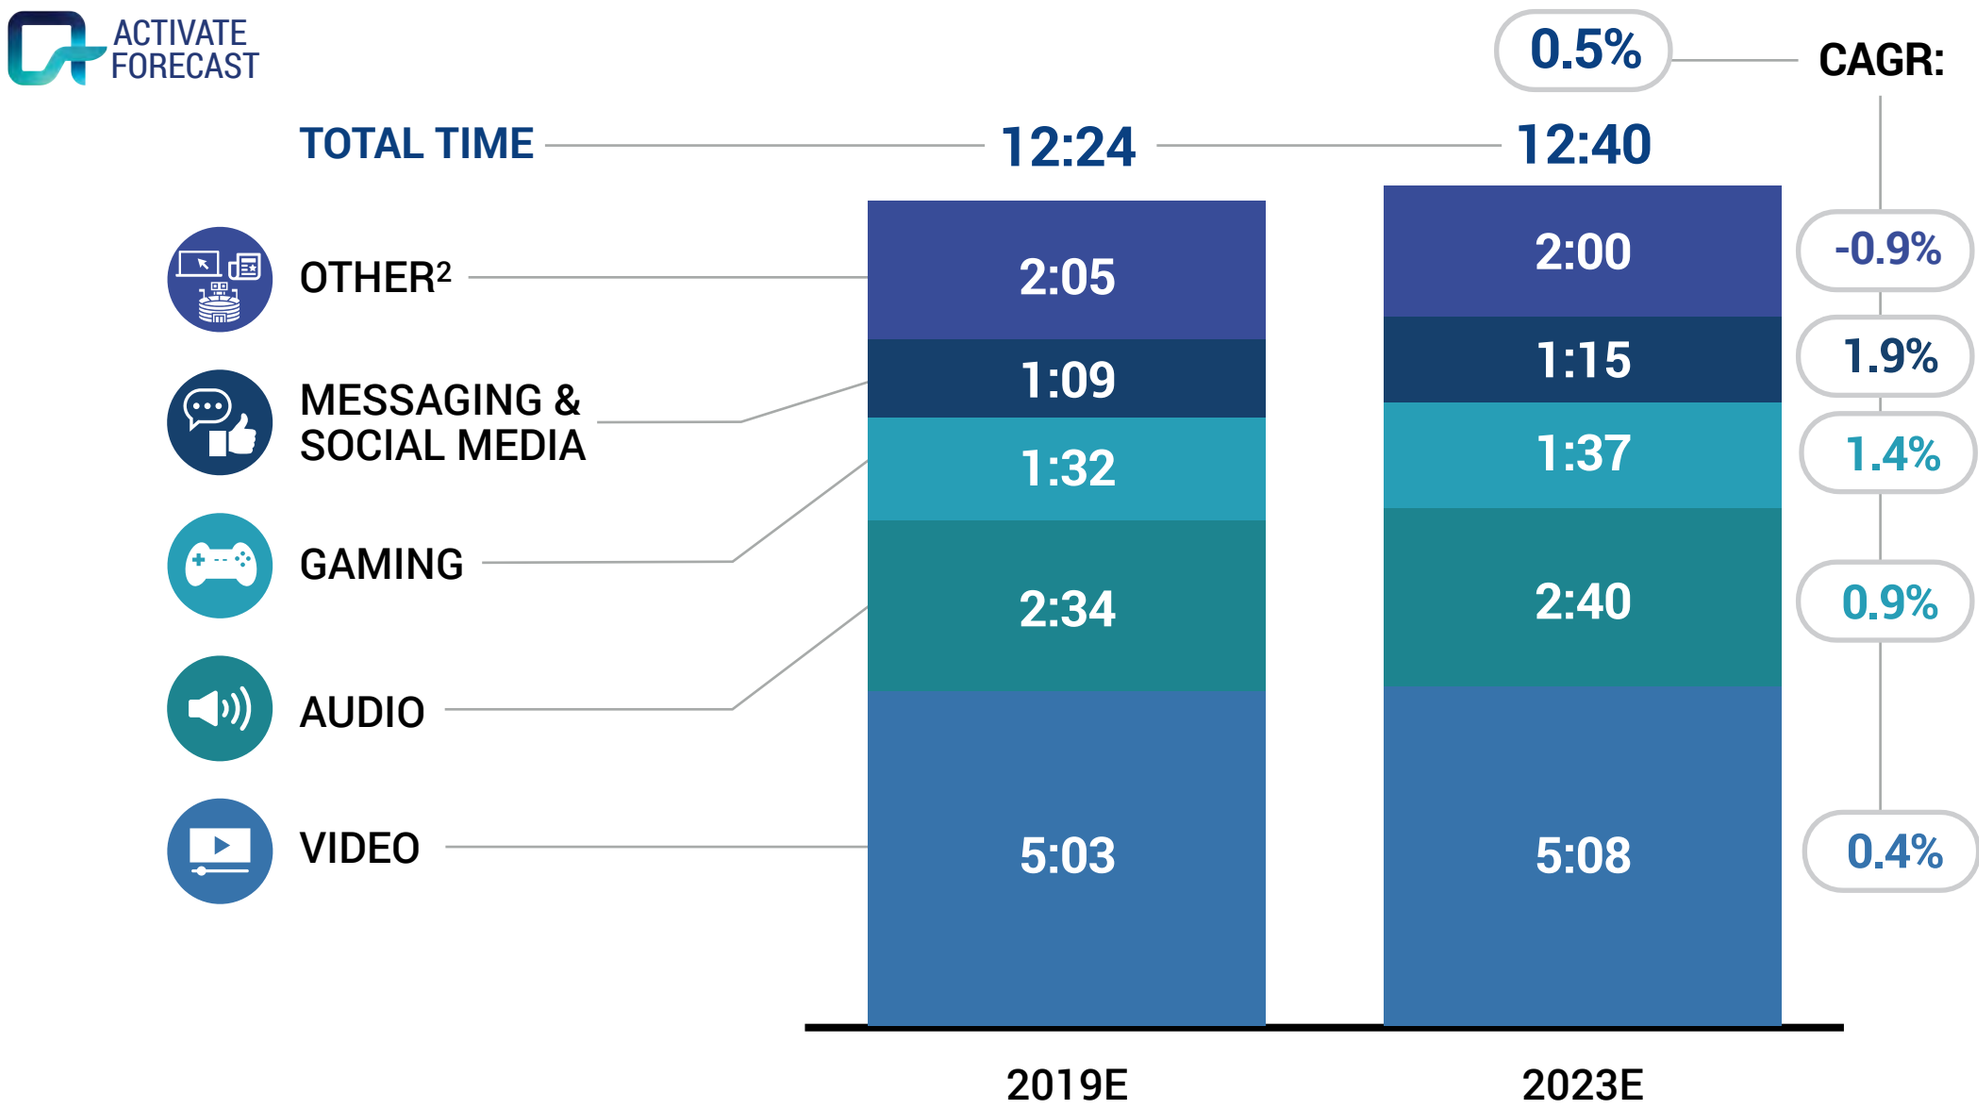

1. Behaviors averaged over 7 days.
2. "Other" includes media activities outside of listed categories, such as browsing websites, reading, cinema, live events, etc.

Sources: Activate analysis, Activate 2019 Consumer Tech & Media Research Study (n = 4,006), Comscore, eMarketer, Gallup, Global Web Index, Interactive Advertising Bureau, Music Biz, Nielsen, Pew Research Center, U.S. Bureau of Labor Statistics

By 2023, Americans will spend an additional 16 minutes each day with Internet and Media

Imperative for technology and media companies: Identify and super-serve Super Users, a single group of power users whose spend, time, and influence far exceed those of other users

From the Many to the Few: technology and media companies have traditionally focused on maximizing the size of their user bases, but **there will be a shift towards prioritizing a smaller base consisting of the most valuable consumers**

We have identified these consumers — **Super Users** — who account for a **disproportionately high share of time, spend, fandom, and social amplification** across all activities, including video, gaming, music, podcasts, and eCommerce purchases

The key challenge for technology and media companies will be **identifying and targeting Super Users, and creating experiences to reach them and capture their time and spend**

activate consulting

Source: Activate analysis

Super Users represent only 23% of the population, but account for a disproportionately high share of spend and consumption across all major activities

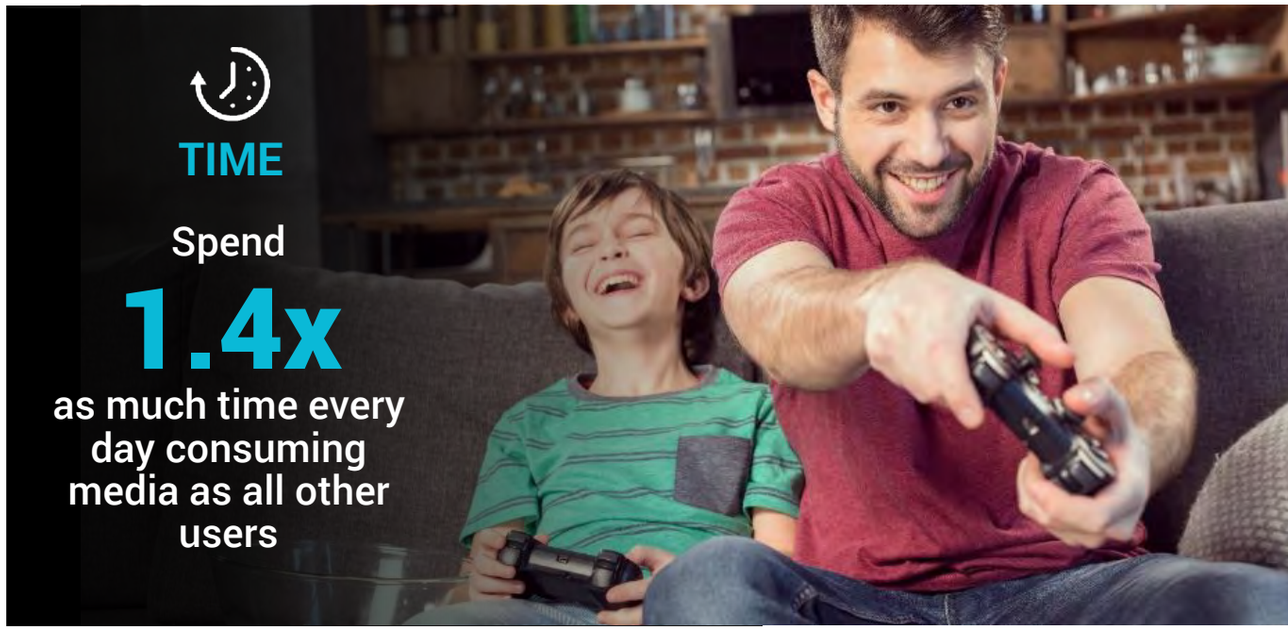

SPEND

Spend

2.5x

as much every month on media services as all other users

TIME

Spend

1.4x

as much time every day consuming media as all other users

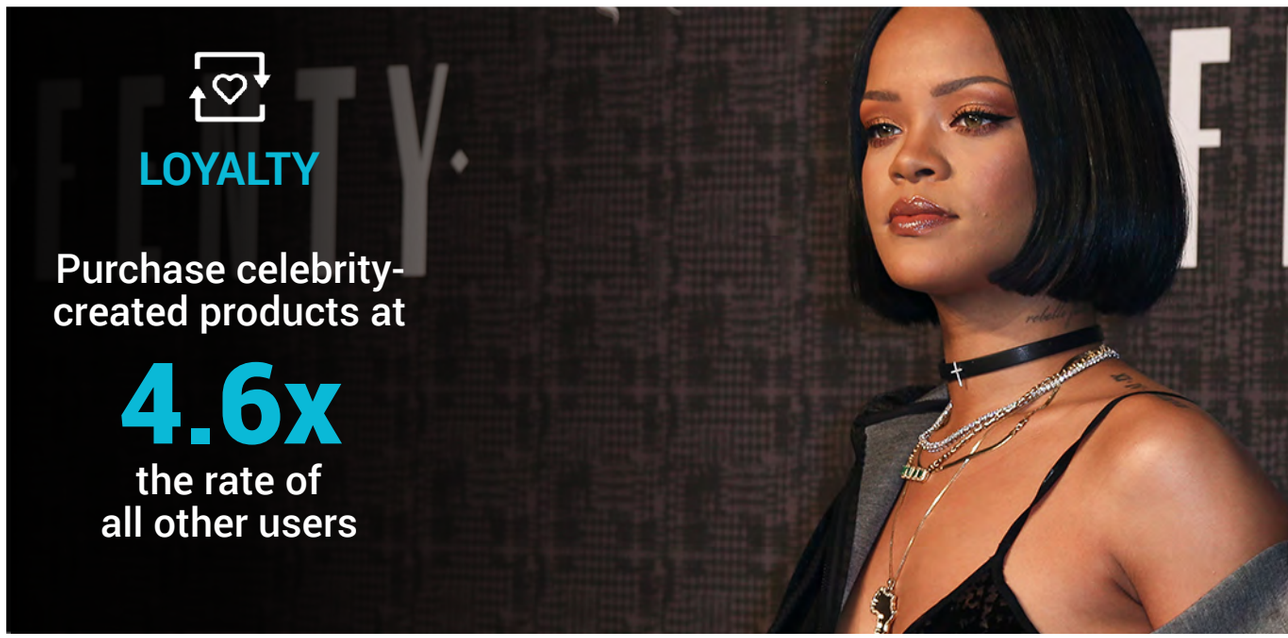

SHARING

Are

2.3x

as likely to often or always share their live event experiences as all other users

LOYALTY

Purchase celebrity-created products at

4.6x

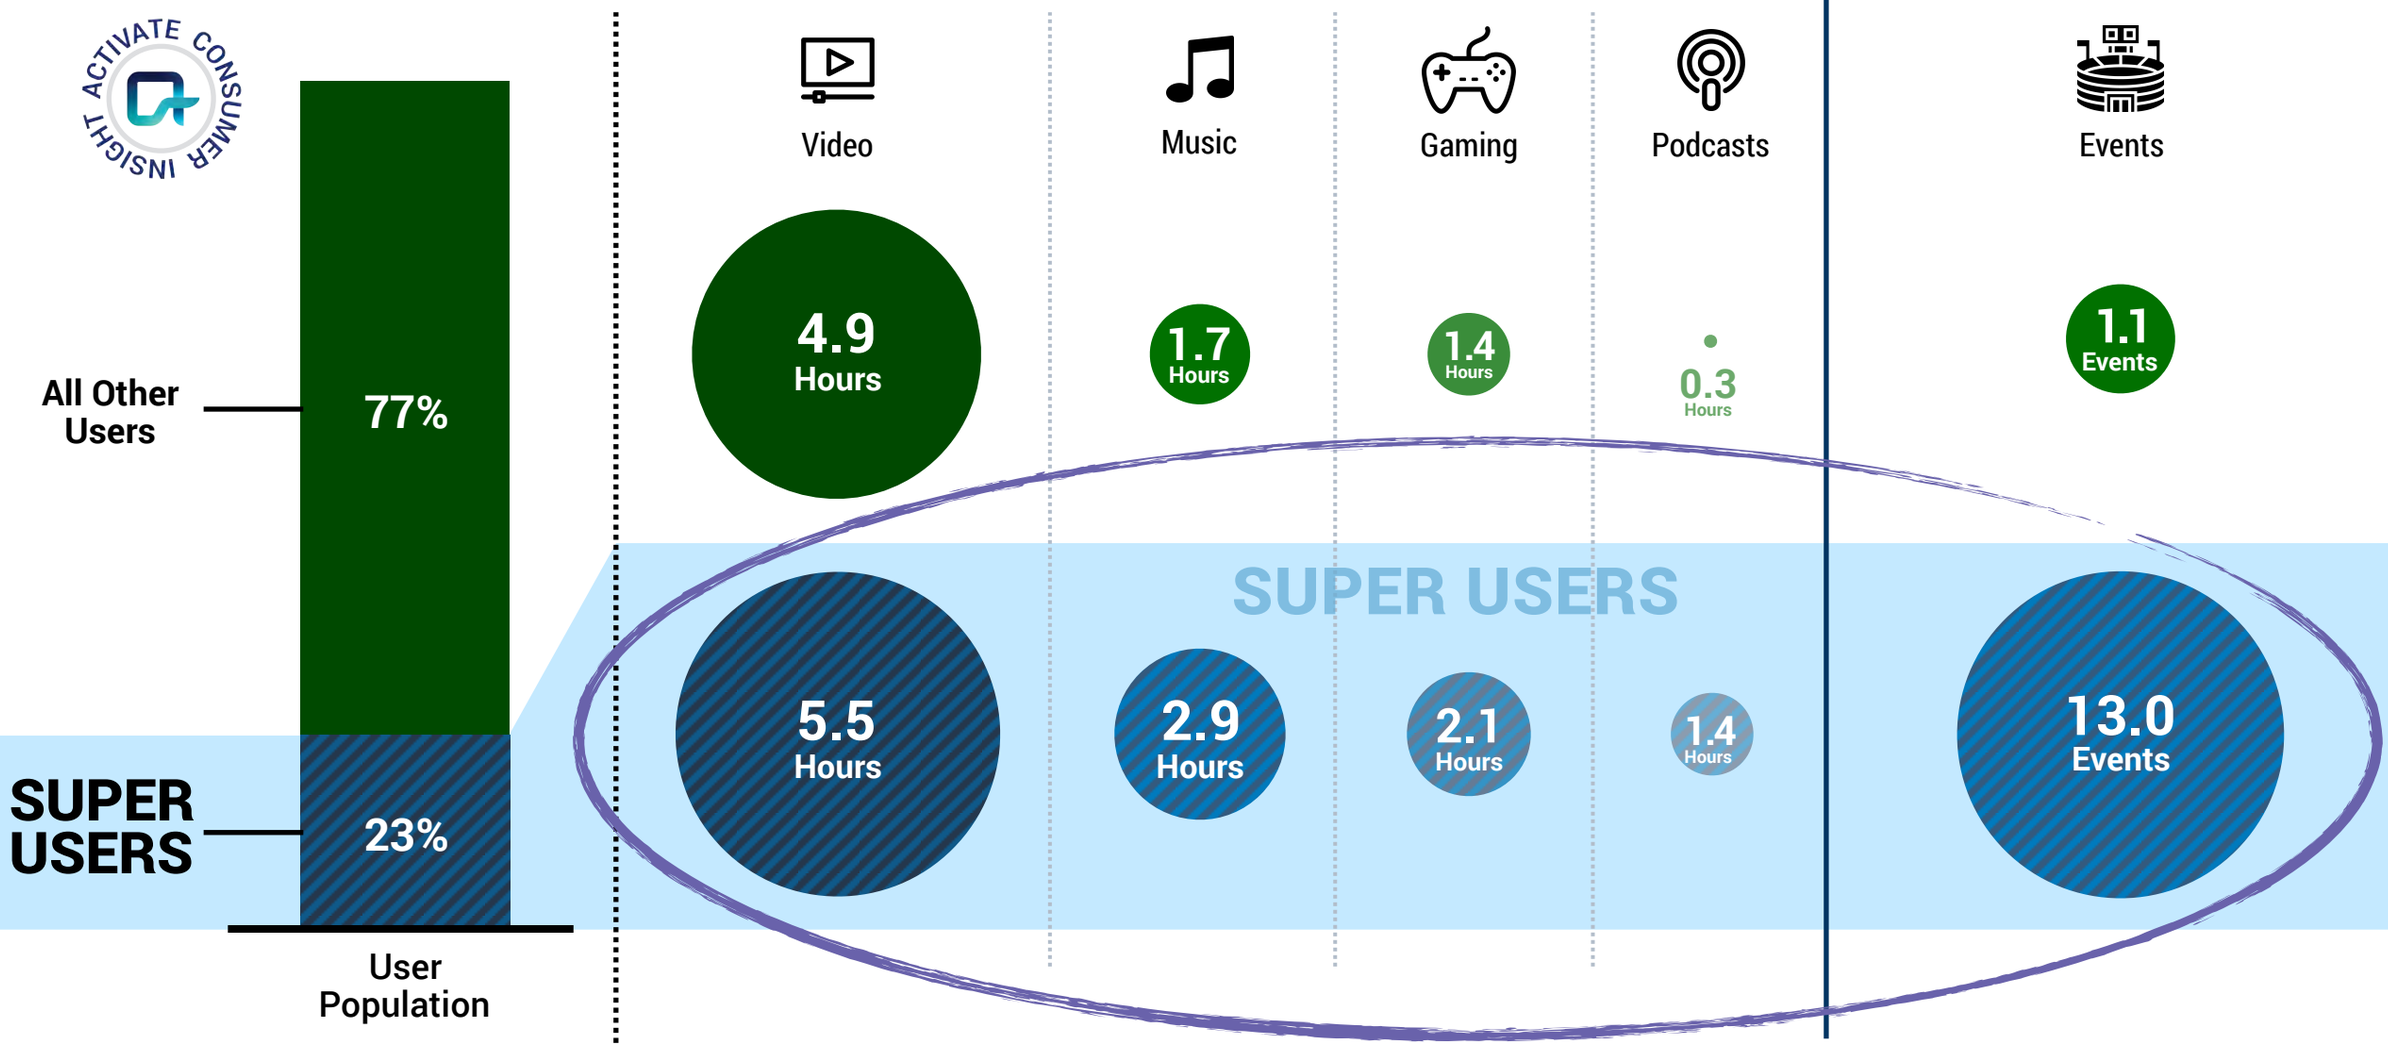

the rate of all other users

Sources: Activate analysis, Activate 2019 Consumer Tech & Media Research Study (n = 4,006)

Super Users spend significantly more time on video, gaming, music, and podcasts than all other users, and attend over ten times the number of live events

AVERAGE DAILY TIME BY MEDIA TYPE PER USER,
U.S., 2019, % ADULTS AGED 18+ / HOURS PER DAY

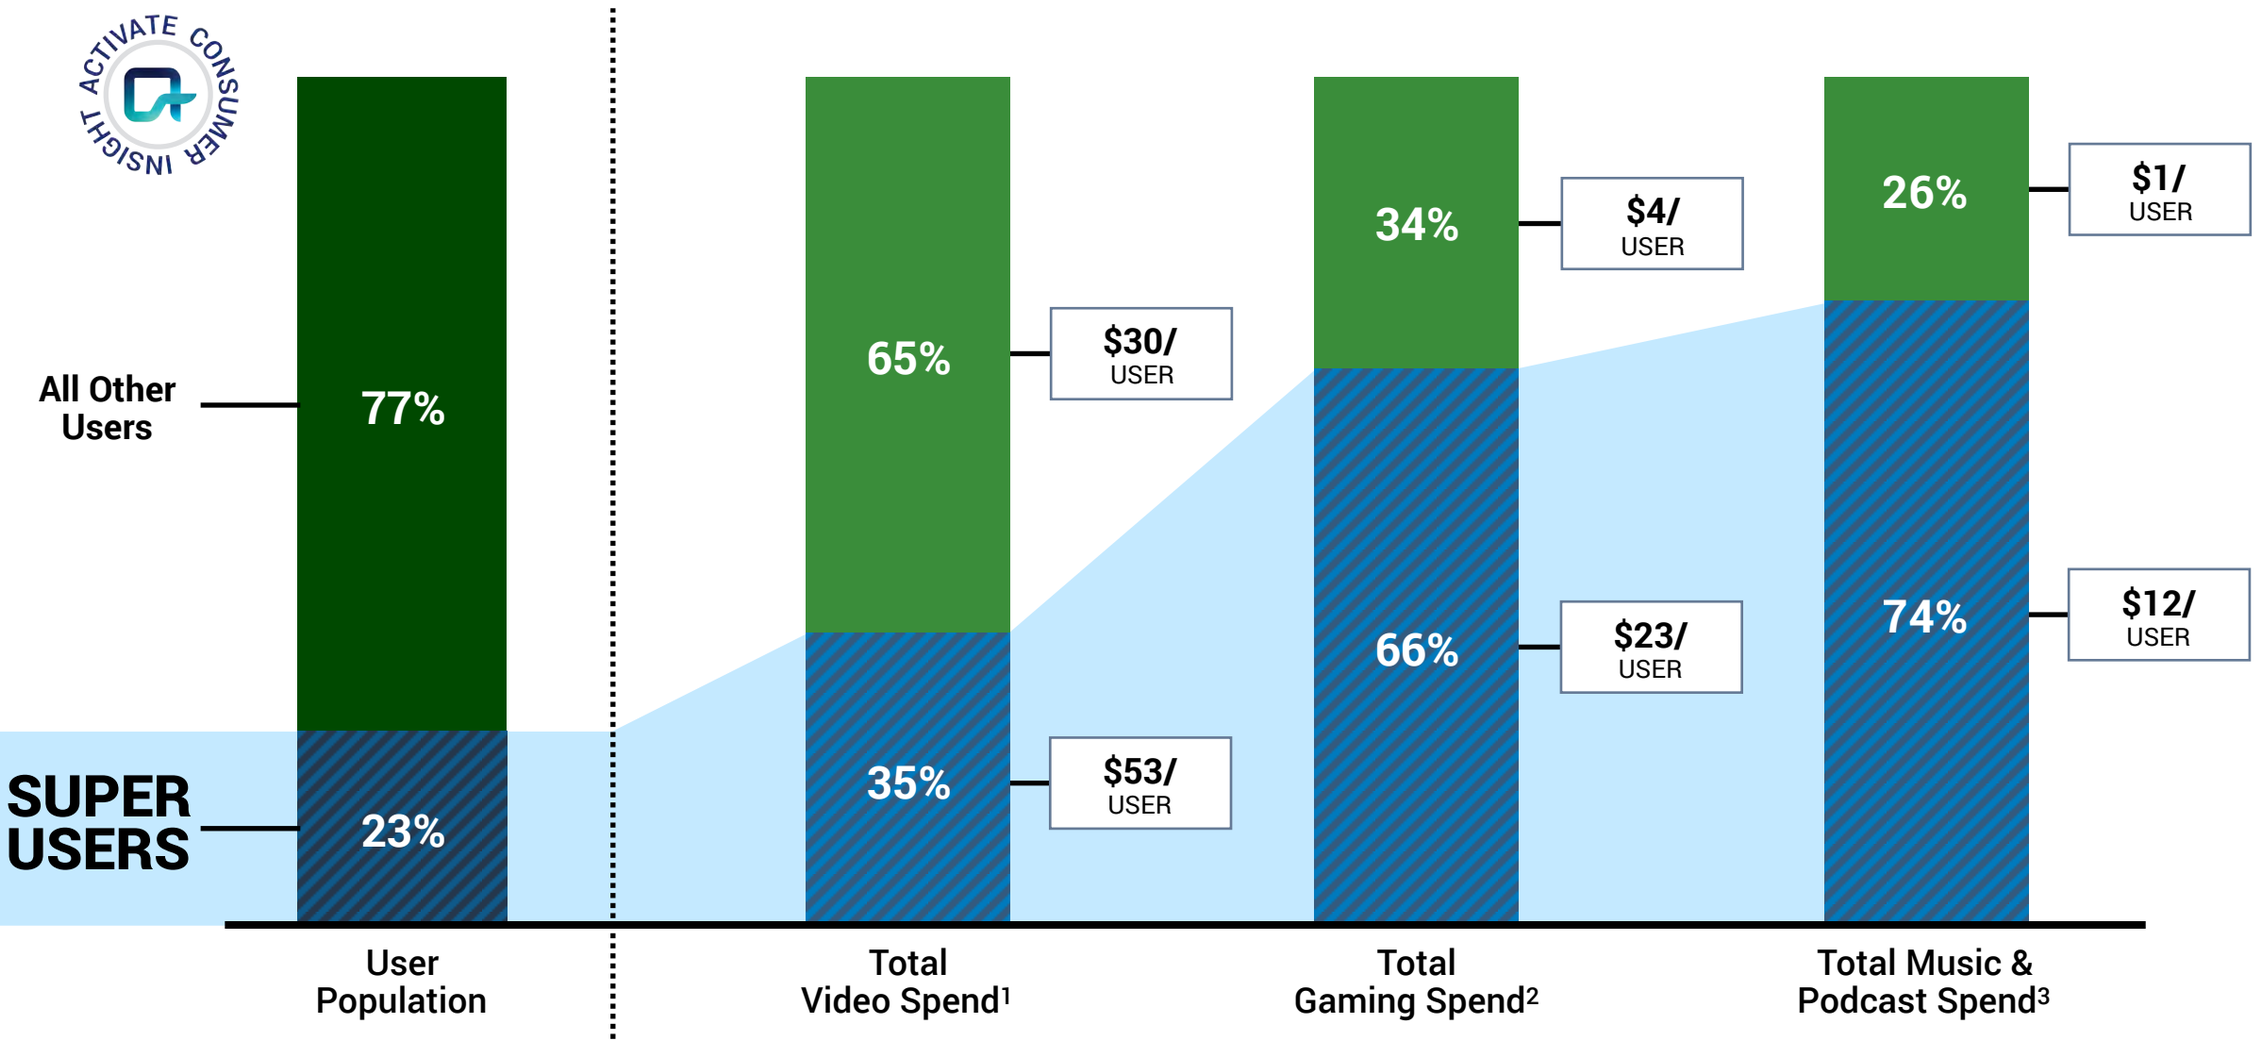

AVERAGE ANNUAL LIVE EVENT ATTENDANCE[1] PER USER,
U.S., 2019, EVENTS PER YEAR

1. Number of live events in large venues (e.g. theaters, stadiums, festival grounds) attended in the last year.
Sources: Activate analysis, Activate 2019 Consumer Tech & Media Research Study (n = 4,006)

Super Users also drive the bulk of gaming, music, and podcast spend, although they make up less than 25% of total users

MONTHLY SPEND BY MEDIA TYPE,
U.S., 2019, % ADULTS AGED 18+ / % TOTAL SPEND WITHIN THE GIVEN MEDIA TYPE / USD PER USER

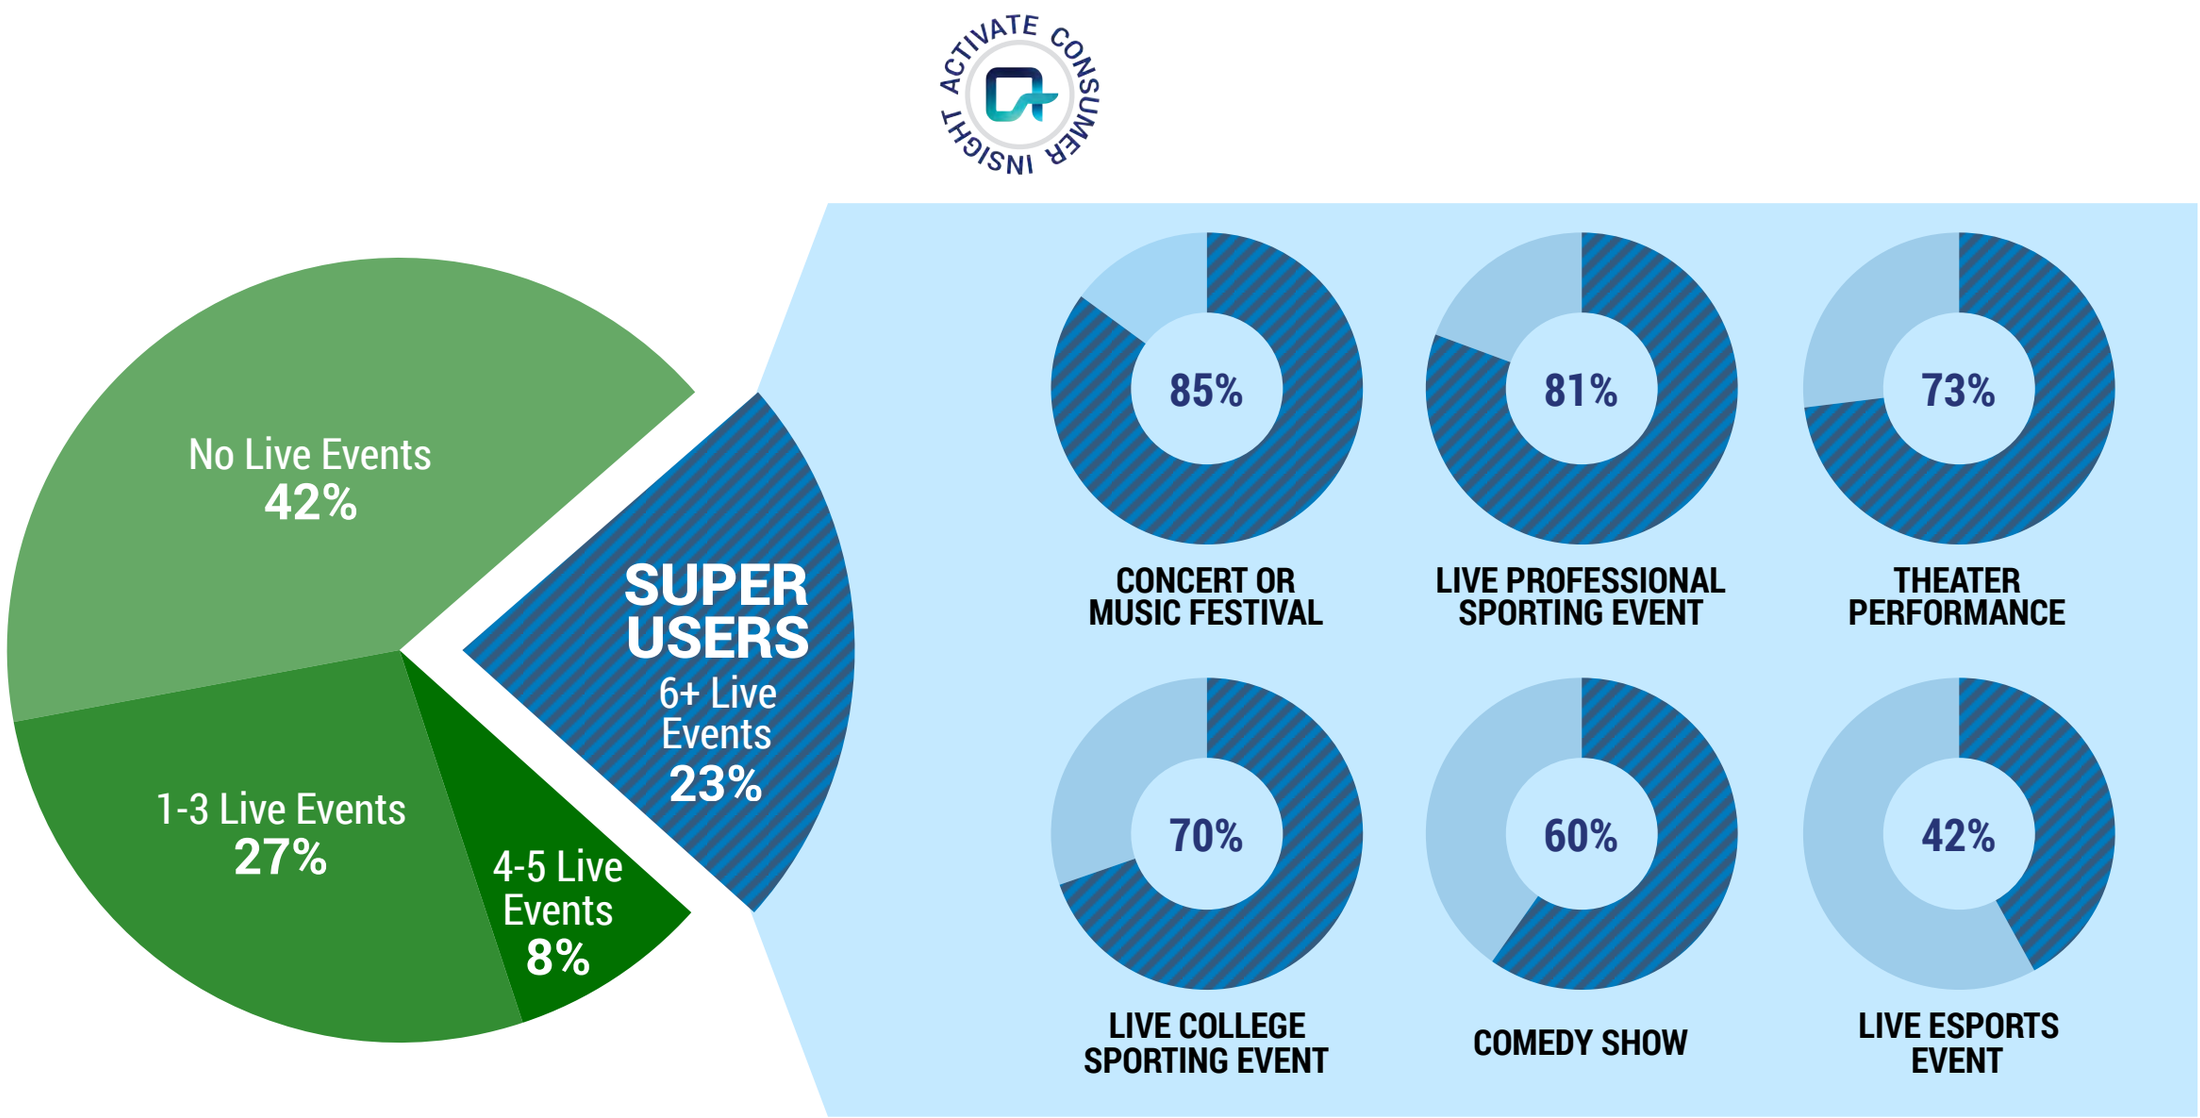

1. Money spent on all video services, including Pay TV, video streaming services, and video rental services. 2. Money spent on video games and other video gaming purchases (e.g. in-app purchases) across all devices. 3. Money spent on music streaming services, satellite radio, and podcast services (excluding donations).
Sources: Activate analysis, Activate 2019 Consumer Tech & Media Research Study (n = 4,006), Digital TV Research, PricewaterhouseCoopers, SNL Kagan, Statista

Super Users attend a broad set of live events, going to an average of four different types of live events in a single year

LIVE EVENT ATTENDANCE[1] IN THE LAST YEAR BY NUMBER OF EVENTS, U.S., 2019, % ADULTS AGED 18+

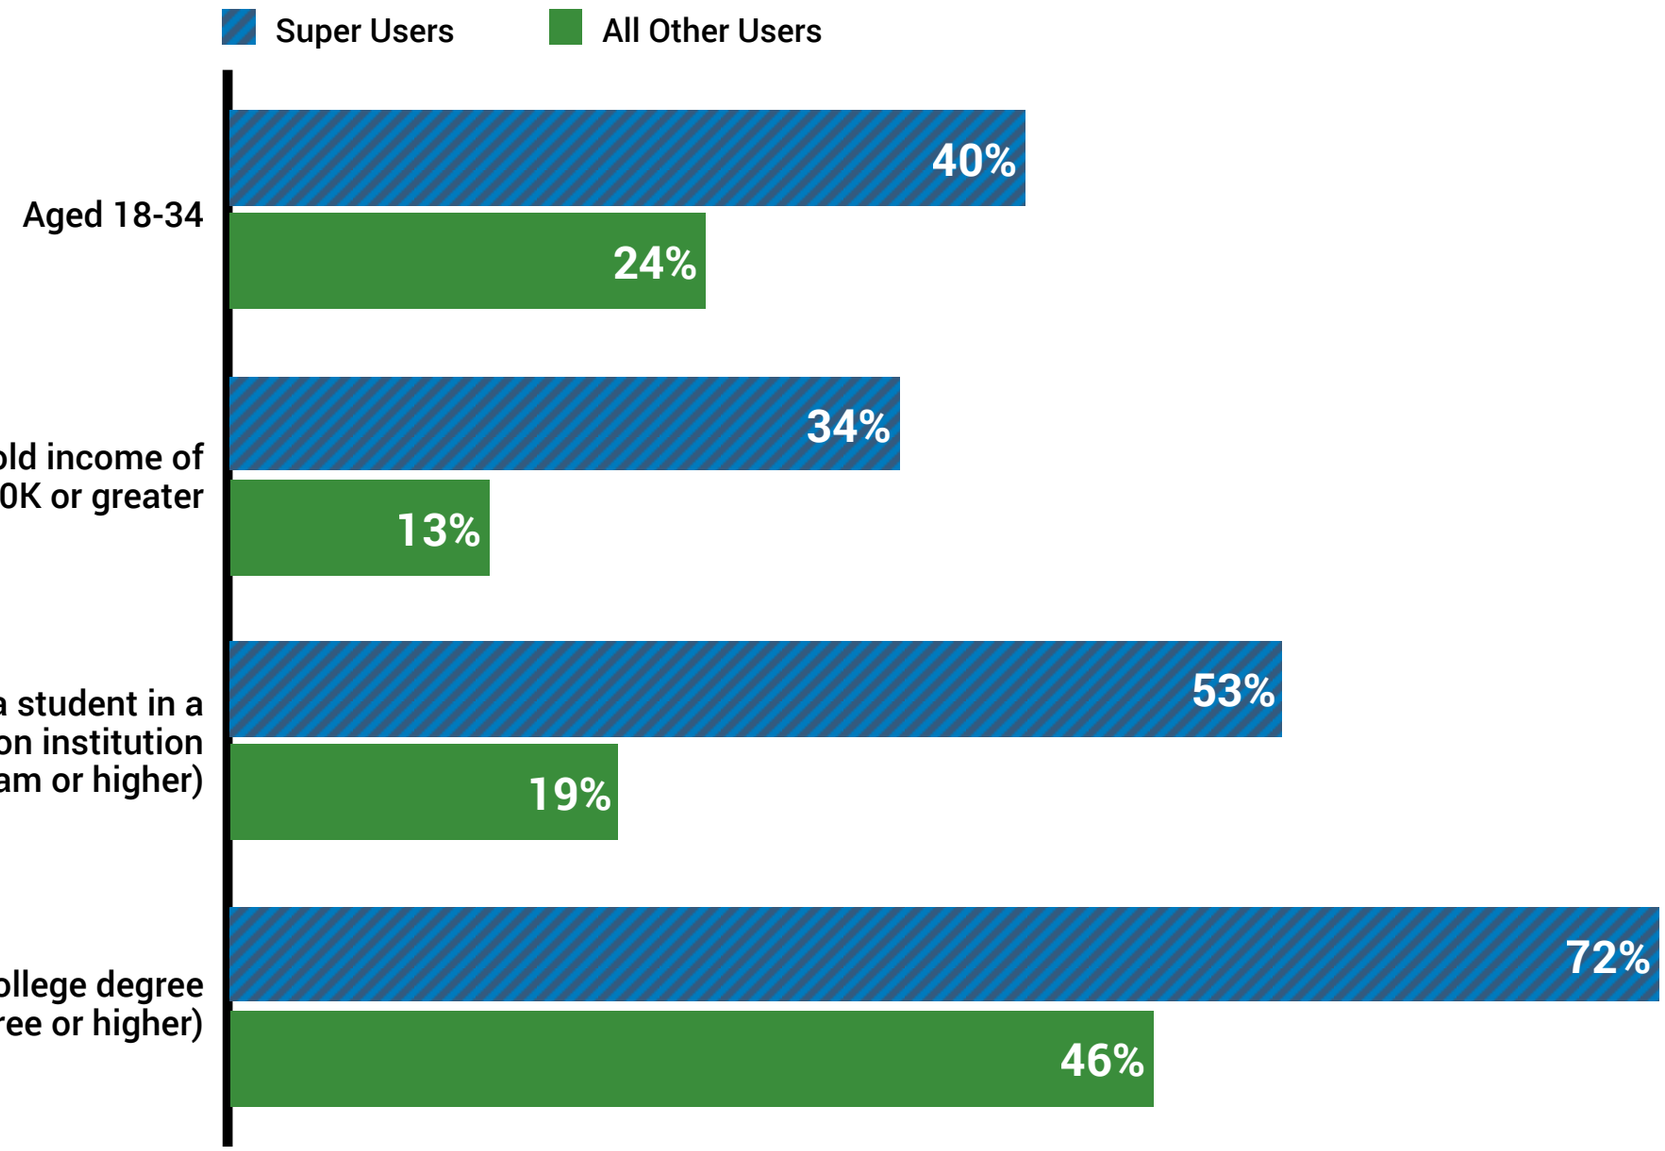

LIVE EVENT ATTENDANCE IN THE LAST YEAR BY EVENT TYPE[1], U.S., 2019, % SUPER USERS

1. Number of live events in large venues (e.g. theaters, stadiums, festival grounds) attended in the last year.
Sources: Activate analysis, Activate 2019 Consumer Tech & Media Research Study (n = 4,006)

Super Users are younger, more affluent, and more educated

USER DEMOGRAPHICS, U.S., 2019, % ADULTS AGED 18+

Sources: Activate analysis, Activate 2019 Consumer Tech & Media Research Study (n = 4,006)

Within Super Users there are Loyalists, a segment of highly engaged and active users who are fueled by their loyalty to particular artists and athletes

LOYALISTS
(39% of Super Users)

Early Adoption

63%

Watch new, highly-anticipated content as soon as it is released

Engagement

77%

Consume any content (across media types) created by their favorite artists and athletes

Social Sharing

48%

Often or always invite others to live events and pay for their tickets

Devotion

89%

Have purchased at least one performer-created consumer product or visited a performer-created destination in the last year

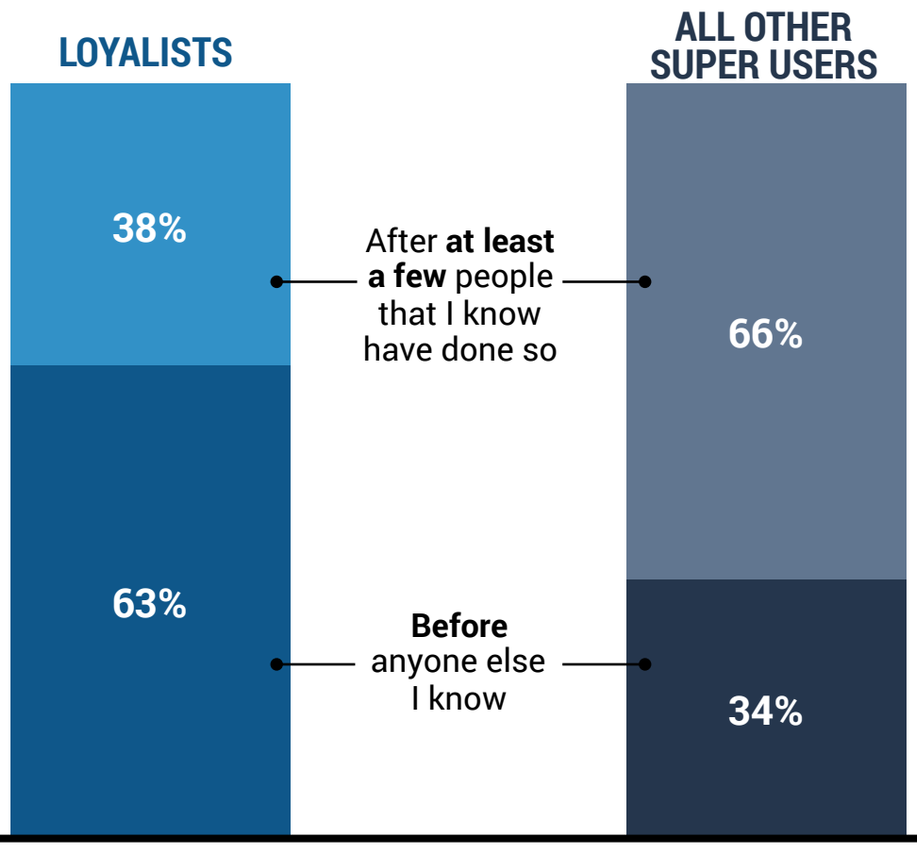

ACTIVATE CONSUMER INSIGHT

Sources: Activate analysis, Activate 2019 Consumer Tech & Media Research Study (n = 4,006)

Loyalists consume media and entertainment and buy live event tickets as soon as they're released, while other Super Users usually wait for validation from their friends

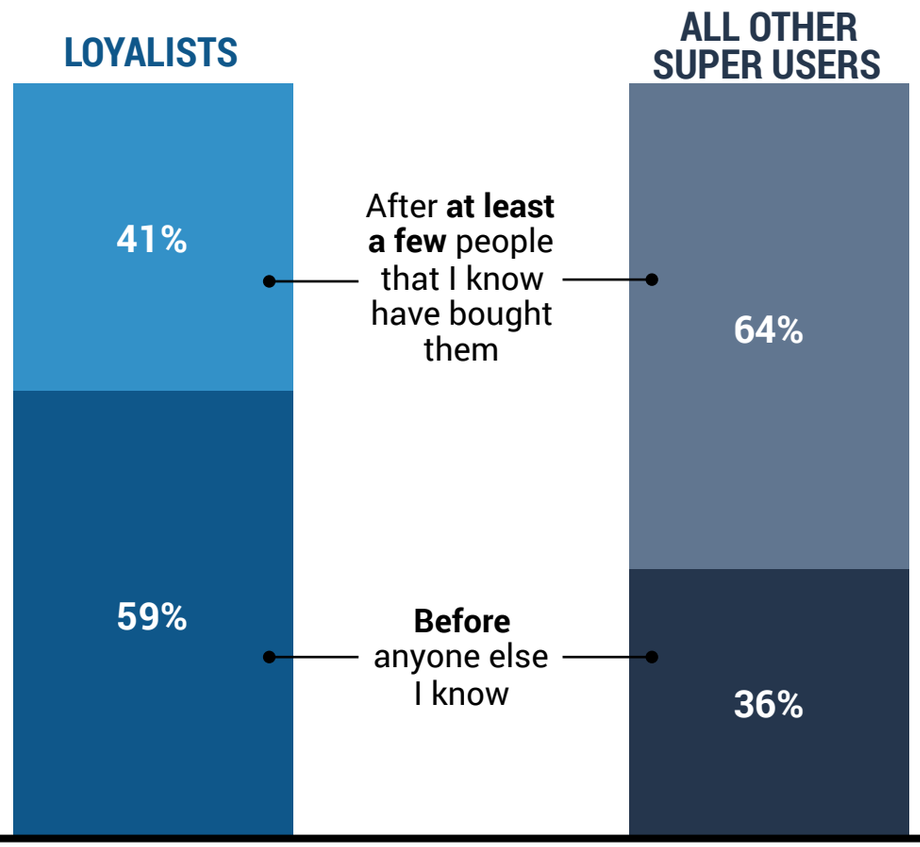

PROPENSITY TO CONSUME NEW CONTENT,
U.S., 2019, % SUPER USERS

When a new, highly-anticipated song / movie / video game is released, I usually listen to / watch / play it…

LIVE EVENT TICKET PURCHASING BEHAVIOR,
U.S., 2019, % SUPER USERS

When a new, highly-anticipated live event is announced, I usually buy tickets…

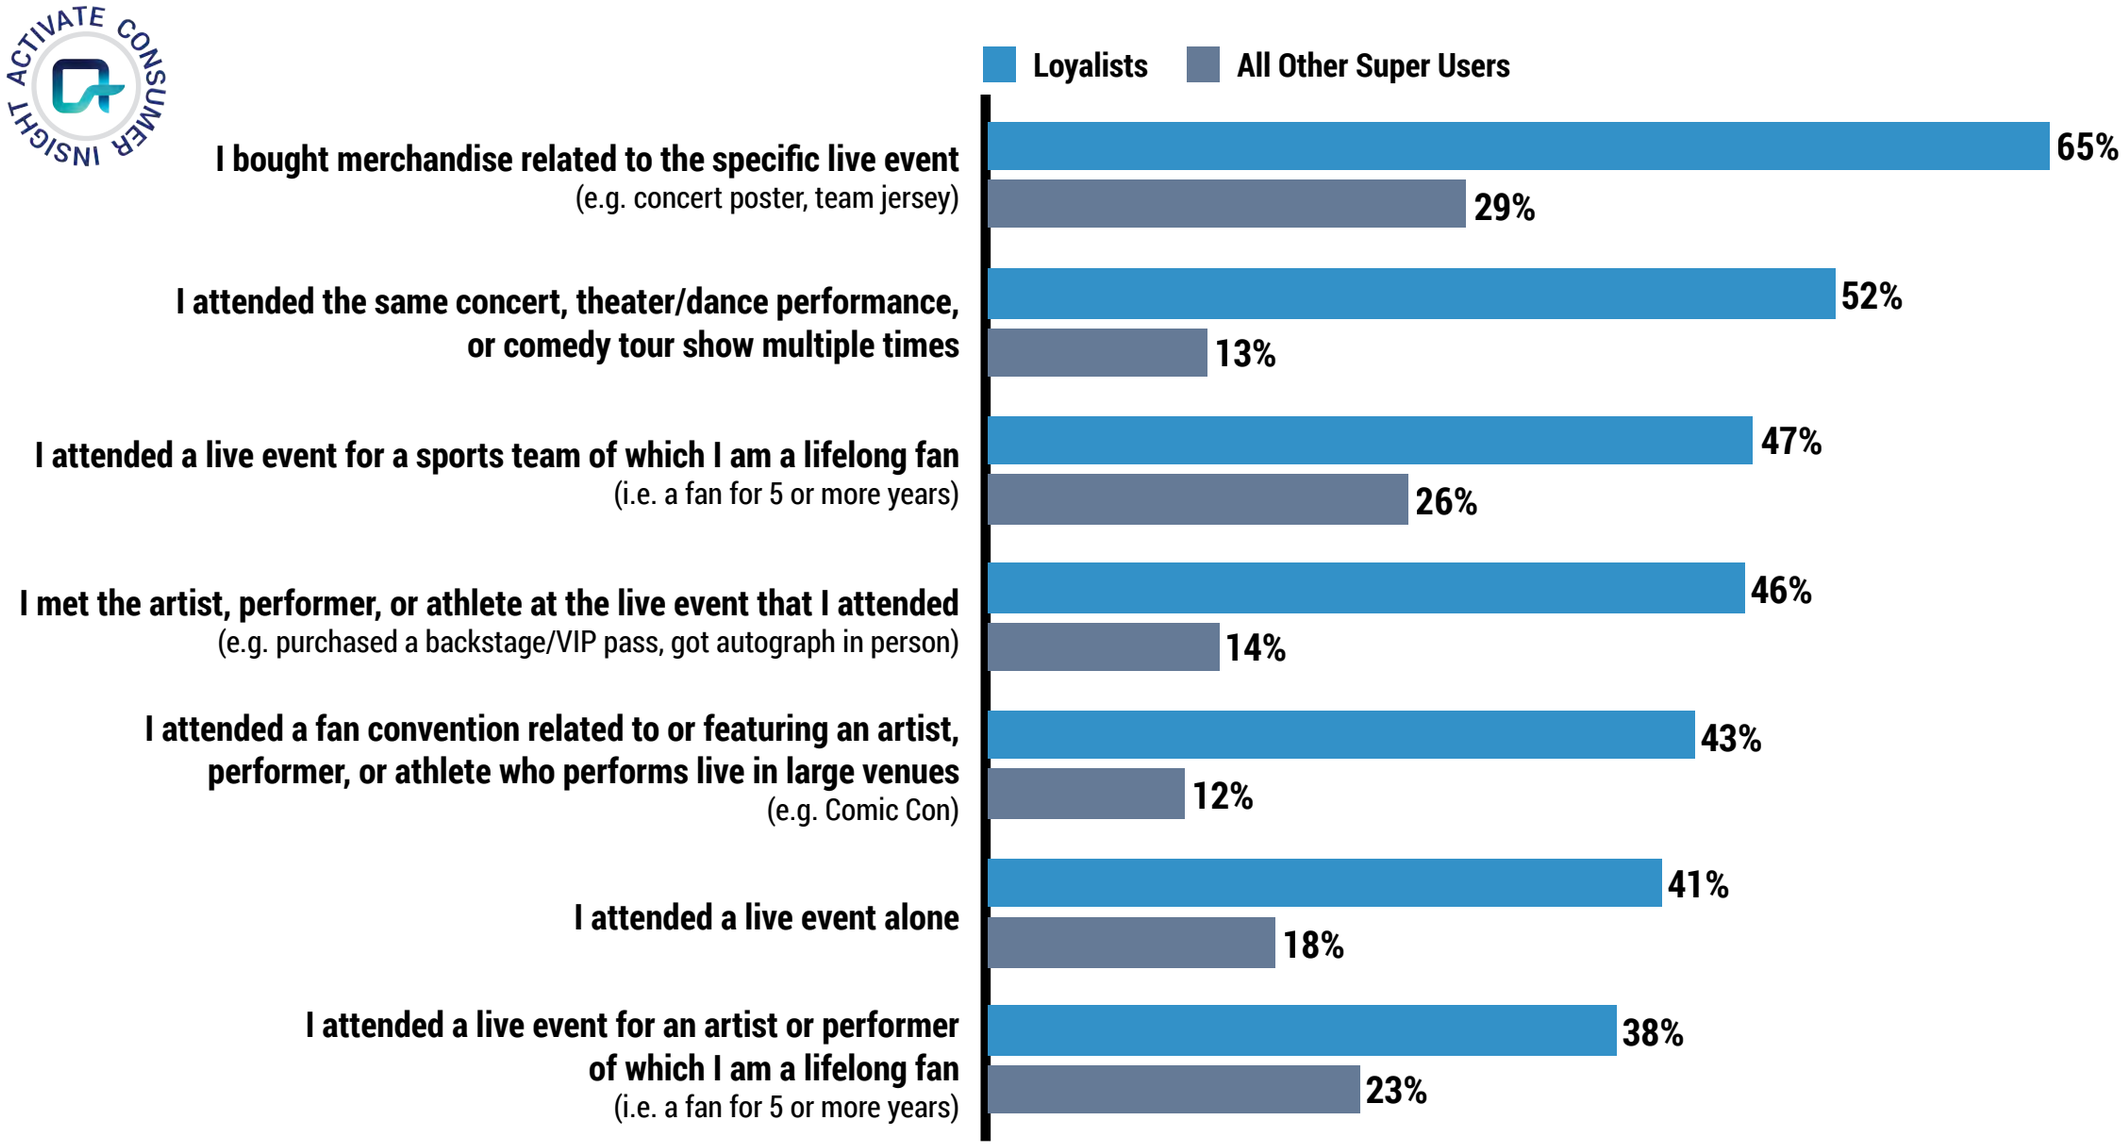

activate consulting

Sources: Activate analysis, Activate 2019 Consumer Tech & Media Research Study (n = 4,006)

Loyalists are the most dedicated fans — they are significantly more likely to participate in fan-related activities than other Super Users

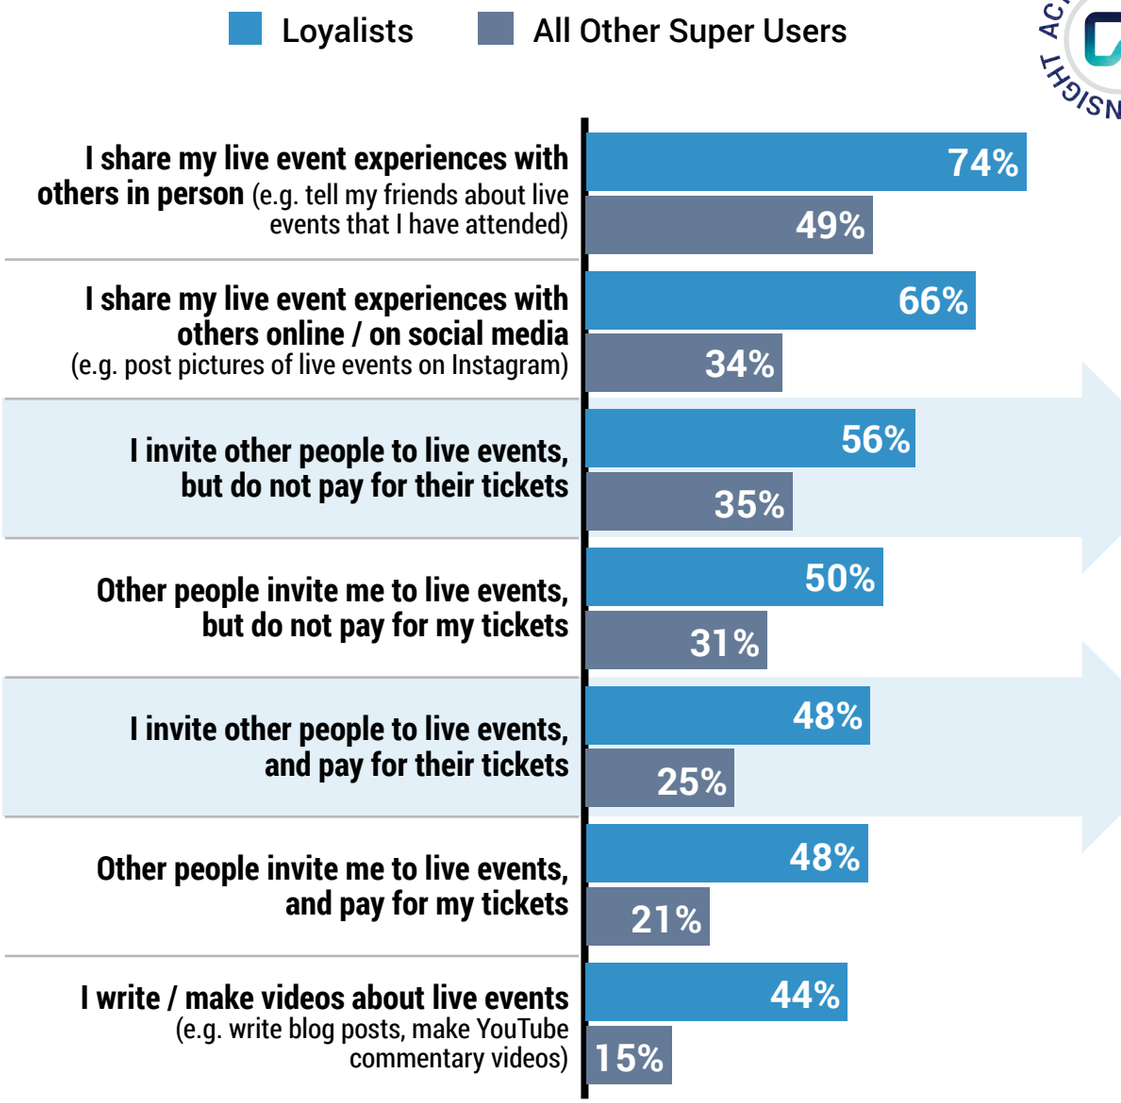

PARTICIPATION IN FAN-RELATED ACTIVITIES IN THE LAST YEAR, U.S., 2019, % SUPER USERS

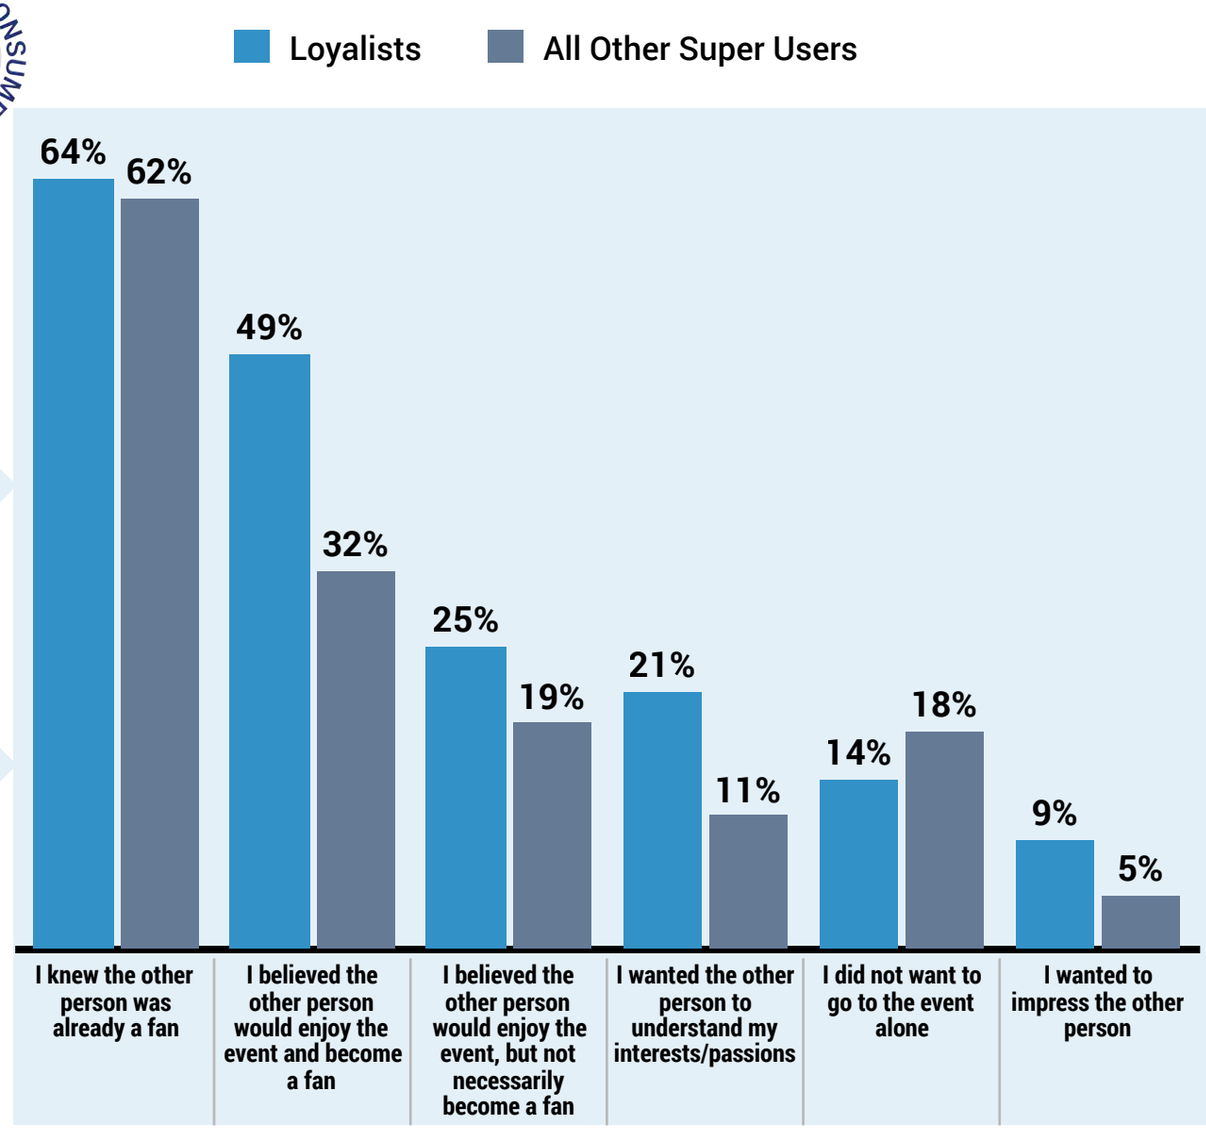

Sources: Activate analysis, Activate 2019 Consumer Tech & Media Research Study (n = 4,006)

All Super Users, especially Loyalists, amplify live events by inviting other people and sharing their experiences with their social networks

WAYS IN WHICH SUPER USERS EXTEND EXPERIENCES TO THEIR NETWORKS[1], U.S., 2019, % SUPER USERS

REASONS WHY SUPER USERS INVITE OTHERS TO LIVE EVENTS, U.S., 2019, % SUPER USERS WHO INVITE OTHERS TO LIVE EVENTS[1]

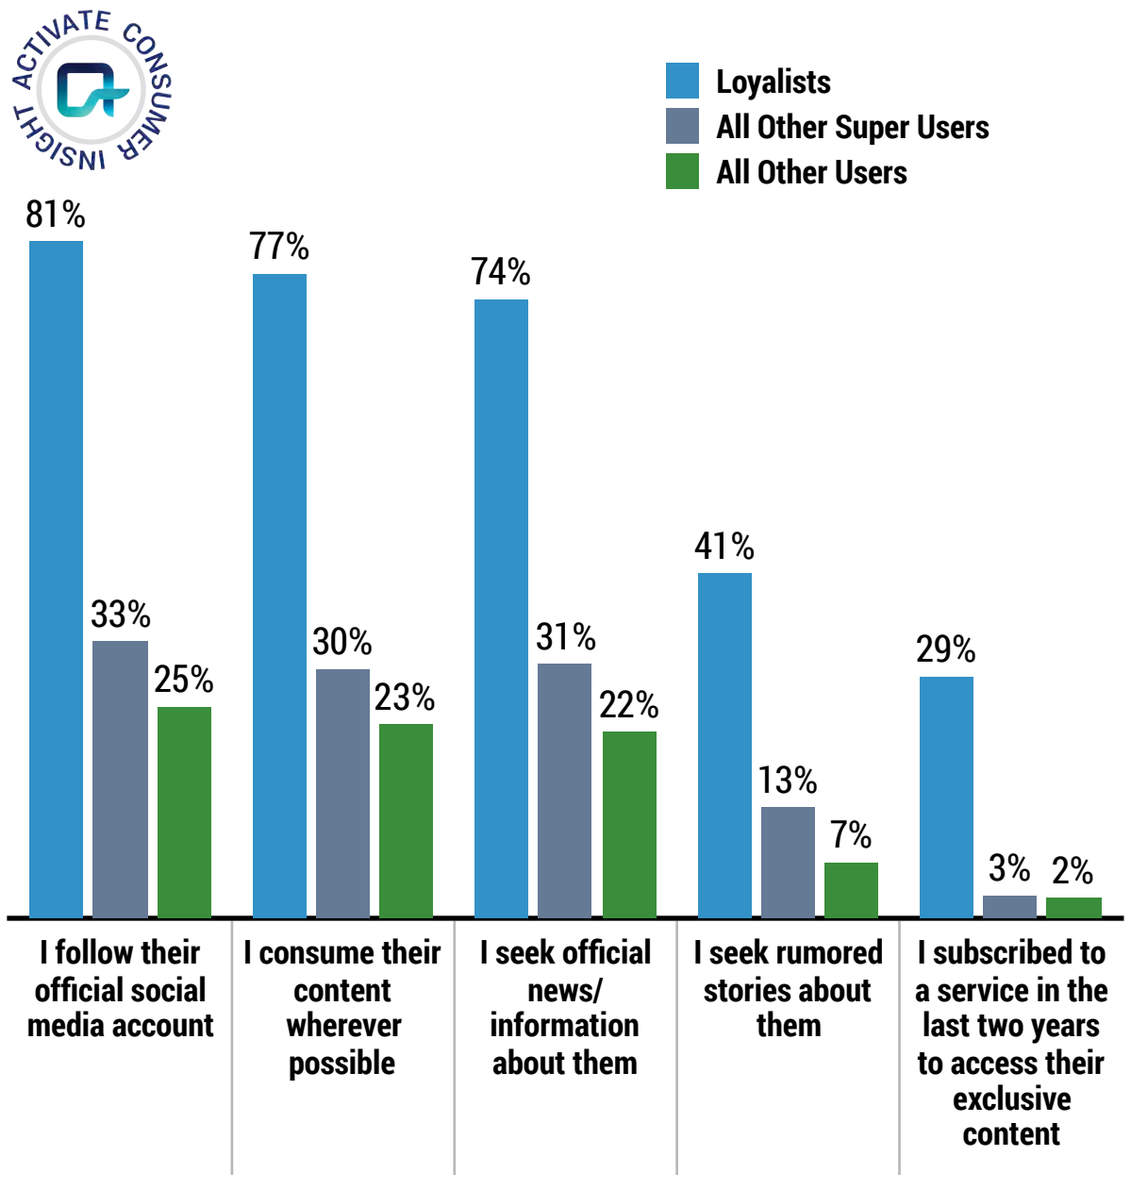

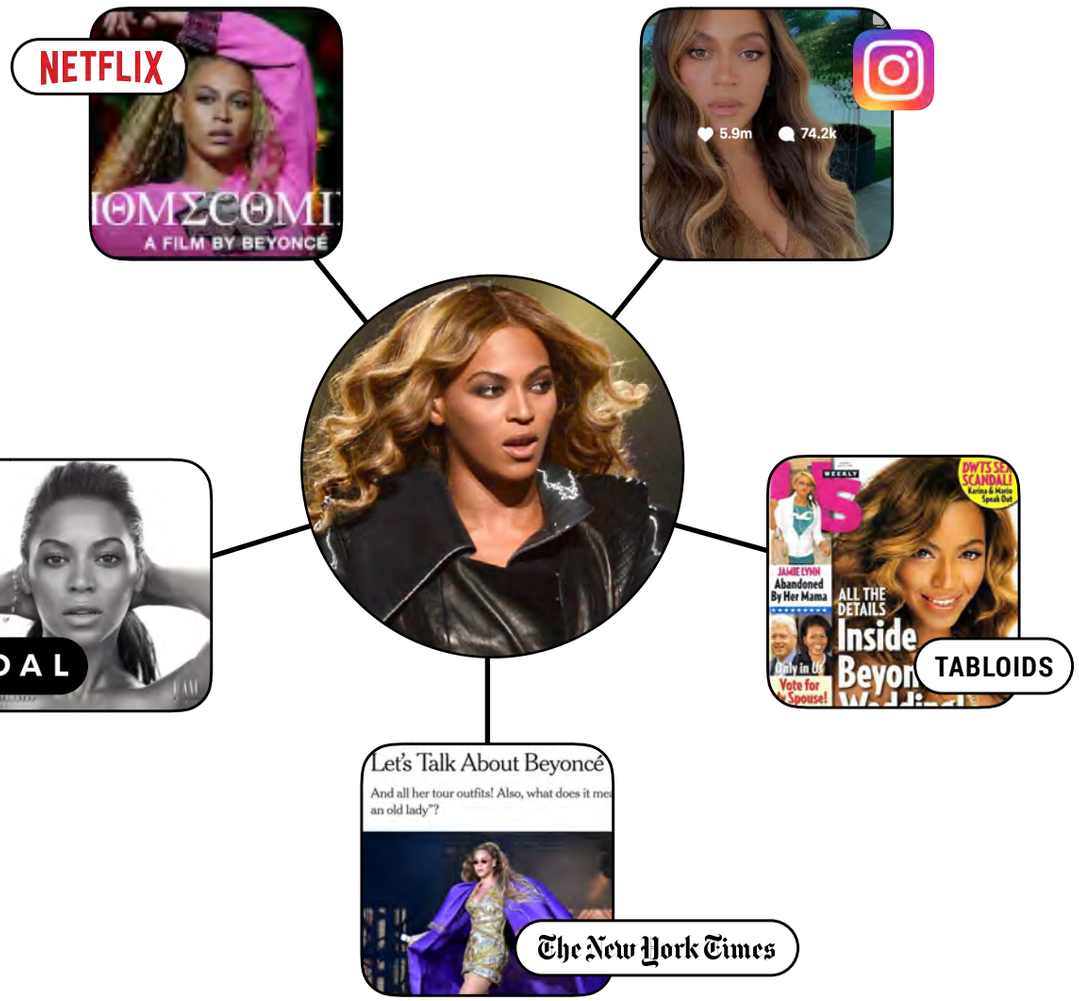

activate consulting

1. Super Users who report often or always completing the given activity.
Sources: Activate analysis, Activate 2019 Consumer Tech & Media Research Study (n = 4,006)

Loyalists immerse themselves in everything created by and related to their favorite artists and athletes

METHODS USED TO FOLLOW FAVORITE ARTISTS/ATHLETES, U.S., 2019, % ADULTS AGED 18+

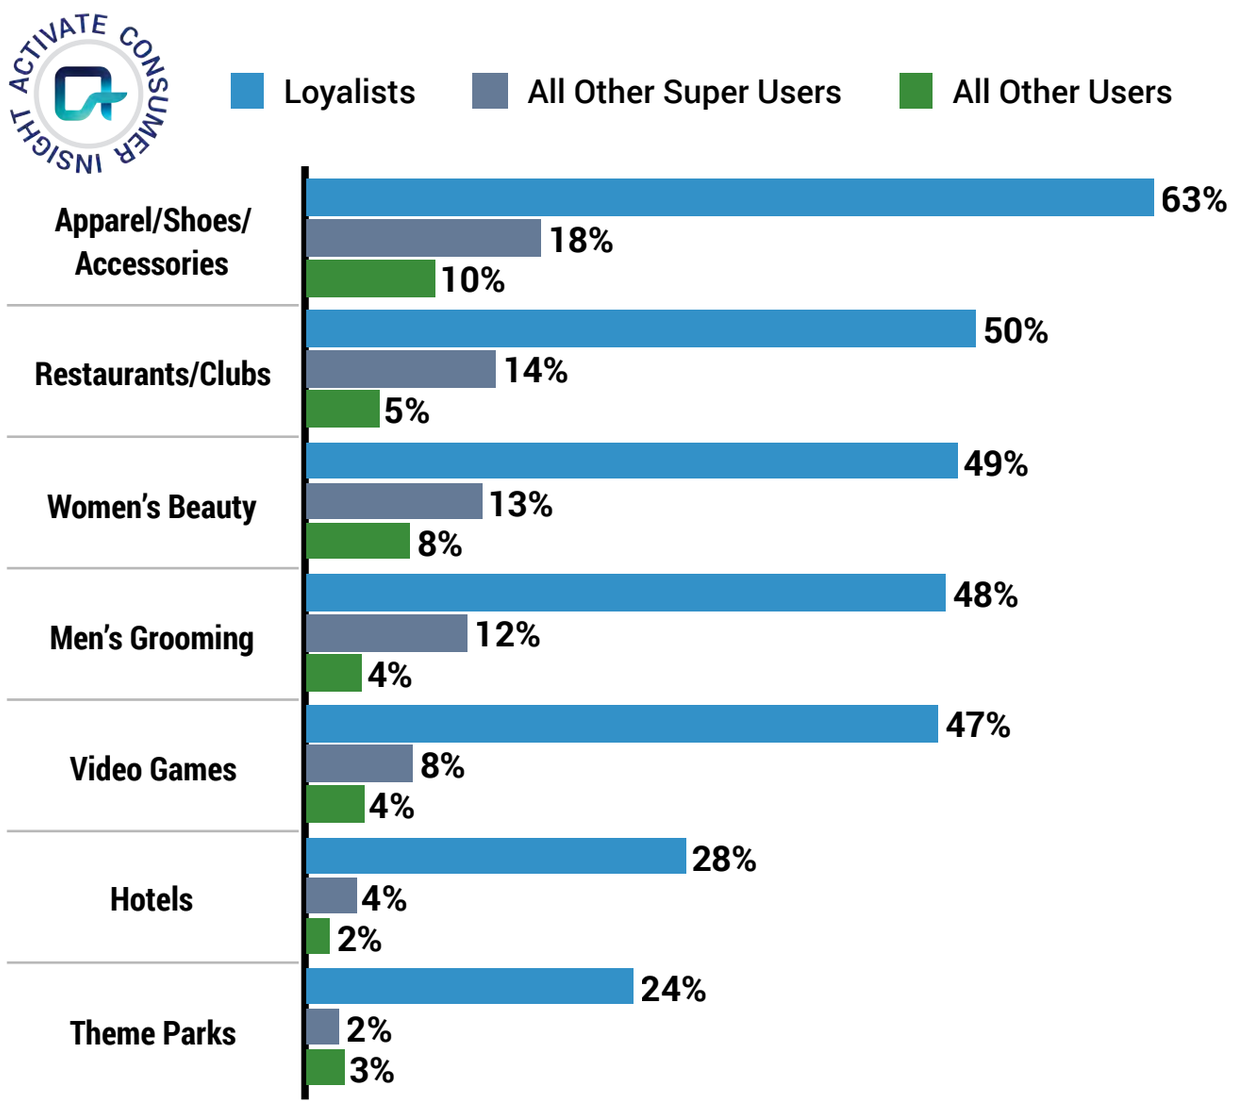

Sources: Activate analysis, Activate 2019 Consumer Tech & Media Research Study (n = 4,006)

Loyalists seek engagement with their favorite artists and athletes off the stage and off the field; they are dramatically more likely to purchase performer-created products and experiences

PERFORMER-CREATED PRODUCTS AND DESTINATIONS THAT USERS HAVE PURCHASED OR VISITED IN THE LAST YEAR,
U.S., 2019, % ADULTS AGED 18+

Going forward, eCommerce will grow beyond marketplace platforms, shrinking the divide between physical and digital shopping

Forces Shaping the Future of eCommerce

1

DELIVERY

Winners in eCommerce will be companies that can meet consumer delivery demands — fast shipping options with the ability to choose where and when they receive their items (e.g. in-store pickup, self-service lockers, in-home delivery)

2

SELLER DEMOCRATIZATION

A growing class of technology companies is evening the eCommerce playing field — providing a suite of accessible products and services that enables brands of all sizes to create digital storefronts

3

RE-COMMERCE

Buying and selling used products online will be an established consumer behavior and renting is set to follow — younger customers will propel adoption

4

SOCIAL COMMERCE

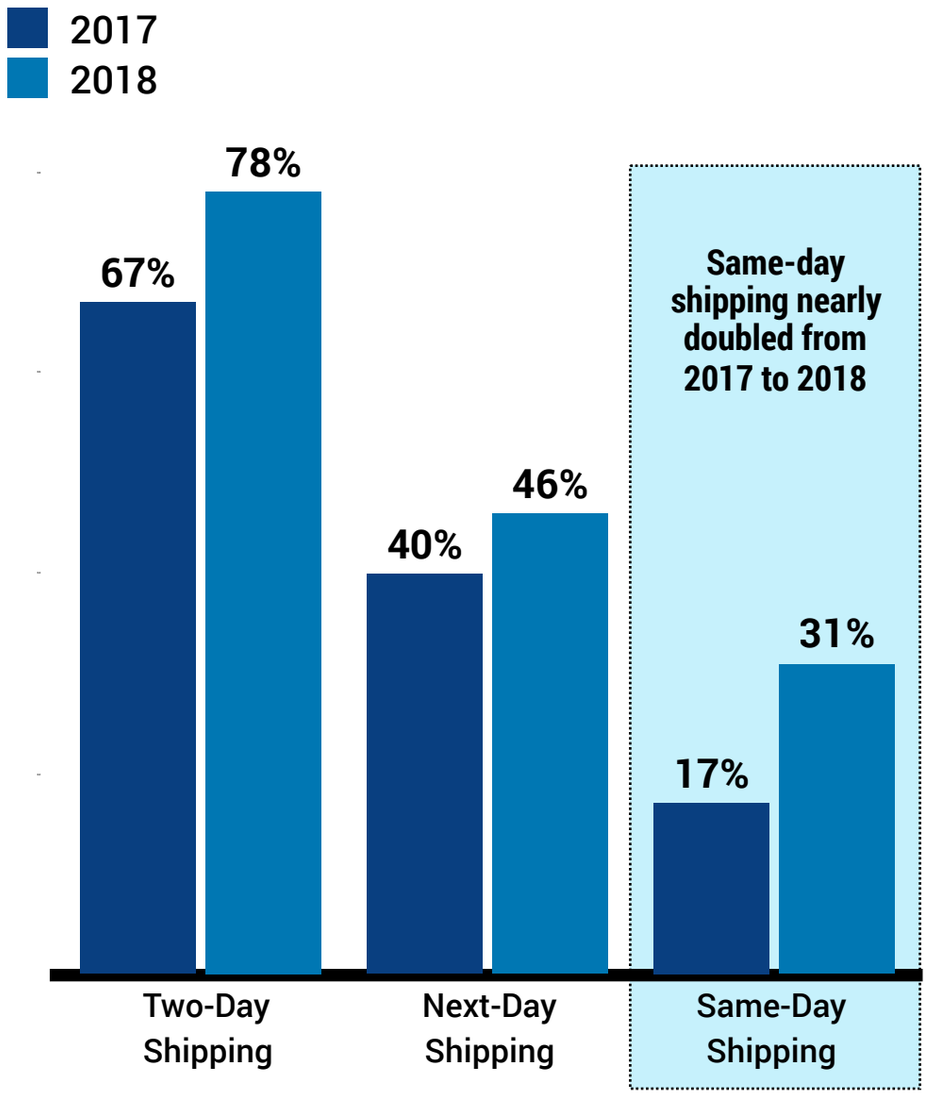

Social media platforms are evolving from sources of inspiration to online storefronts — through shoppable ads, shoppable posts, and in-app checkout features

SELLER DEMOCRATIZATION

By building a direct connection with consumers, these D2C brands gain valuable customer data, which they will leverage to optimize every area of their business

PRODUCT DEVELOPMENT

- **Co-develop products with customers** by using direct conversation channels to crowdsource and mine ideas for new products as well as enhancements to existing products
- **Respond quickly to the changing needs and preferences of the consumer**

PERSONALIZATION OF RECOMMENDATIONS

- **Provide customers with a personalized, guided shopping experience** through individualized recommendations (e.g. size, style) and custom-made product (e.g. based on customer quiz data)
- **Incorporate consumer behavior and feedback to facilitate continuous improvement of recommendations**

DEMAND PLANNING / INVENTORY MANAGEMENT

- **Improve the accuracy of demand forecasts** and adjust production accordingly
- **Decide which inventory to stock at each physical store** (e.g. stock with top online performers for both the overall customer base as well as the customers in that specific location)

CHANNEL MANAGEMENT

- **Pinpoint prime locations for brick & mortar stores**
- **Identify ideal distribution partners and secure partnerships** by providing proof of demand

PRICING

- **Probe customer demand and willingness to pay**
- **Determine the driving factors of willingness to pay** (e.g. quality, scarcity, warranty, try-before-you-buy policy) through direct communication lines with consumers
- **Learn how customers prefer to pay** (e.g. à la carte, subscription, bundle) **and how they view pricing promotions**

As eCommerce evolves, physical will evolve with it, creating new retail concepts and technology to enhance the in-store experience

NEXT GENERATION RETAIL MODEL

The new wave of retail concepts will include a set of **brick & mortar stores hosting an ever-rotating curation of primarily online-native D2C brands**

These retailers provide emerging brands with a **low-risk avenue to test physical**, offering:

- Short-term leases
- Swift shop launch
- Shop design and staffing teams
- Complete and transparent access to performance metrics
- Collaborative event space (e.g. for classes, art exhibits, launch parties, speaker series)

EXAMPLES

Showfields features an **immersive theater and art experience** through which shoppers are invited to test and interact with all products

Neighborhood Goods has a **restaurant and social space that hosts events** (e.g. panels, workshops) to build community

EXAMPLE RETAILERS LEVERAGING TECHNOLOGY TO ENHANCE IN-STORE EXPERIENCE

Electronic Shelf Labels	BEST BUY THE HOME DEPOT	• Best Buy has installed electronic shelf labels to **synchronize pricing across digital and physical channels** • The Home Depot uses electronic shelf labels in its appliance department to **incorporate customer reviews and item specifications**
Mobile Integration	Kroger NIKE	• The Kroger app enables shoppers to **create shopping lists, view purchase history, and locate items in-store** • The Nike app's In-Store Mode allows customers to **book fitting rooms, request items to try on,** and scan QR codes on mannequins to **identify the modeled products**
Scanning Robots	Walmart Stop&Shop	• Walmart has rolled out shelf-scanning robots to **identify low stock levels, incorrect price listings, missing labels, and misplaced items** • Stop & Shop has debuted robotic assistants to **monitor for potential hazards** (e.g. broken or spilled item), **stockouts, and pricing issues**
Augmented Reality / Virtual Reality	SEPHORA Neiman Marcus	• Sephora has launched Virtual Artists, an **augmented reality trial tool** • Neiman Marcus has installed **smart mirrors** for customers to **virtually try on items**

Because of the participatory nature of esports, betting is the fastest growing segment — sports-related titles and games with highly complex gameplay will be well positioned for betting success

COMPOUNDED ANNUALIZED REVENUE GROWTH BY ESPORTS MARKET SEGMENT, U.S., 2019E-2023E, %

TOP TITLES BASED ON PRIMARY REASON TO WATCH ESPORTS[2], U.S., 2019, % ESPORTS VIEWERS AGED 18+

1. Includes daily and season-long fantasy esports. 2. Top games based on games that most highly over-index in viewership among individuals that consider element important.
Sources: Activate analysis, Activate 2018 Consumer Tech & Media Research Study (n = 4,000), Activate 2019 Consumer Gaming & Esports Research Study (n = 1,870), Activate 2019 Consumer Tech & Media Research Study (n = 4,006), Esports Earnings, Esports Insider, Informa Telecoms & Media, Narus Advisors / Eilers & Krejcik Gaming, Newzoo, Ovum, PricewaterhouseCoopers, Statista, SuperData

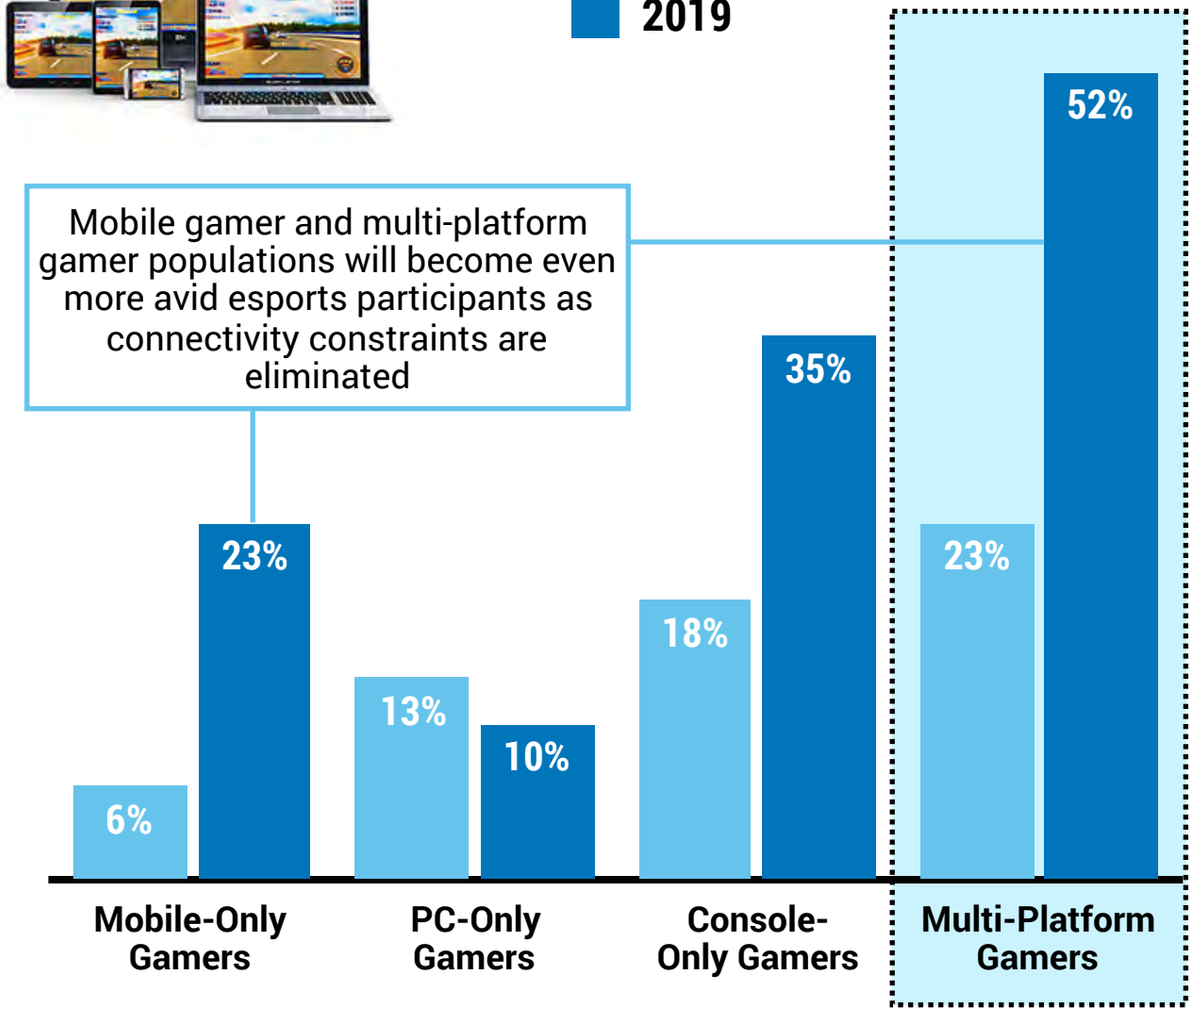

Cloud technology and improved connectivity will further accelerate esports industry growth

OPPORTUNITIES FOR ESPORTS FROM IMPROVED CONNECTIVITY AND CLOUD TECHNOLOGY

Connected Communities	Esports viewers and gamers will be able to better connect across devices — mobile participants will benefit the most as connectivity is the major inhibitor for mobile esports growth
Broader Gamer Base	Cloud solutions will enable venues to handle much larger virtual arenas and establish tentpole gaming events throughout the year at a large scale
Enhanced Live Events	Live esports events will be able to handle VR/ AR integrations, holographic stages, and video streaming connected to seats
Increased Playtime	Features that enable progress to instantly transfer to any device at any time (i.e. starting a game on PC and resuming on mobile) will encourage users to play more often

SHARE OF GAMING DEVICE PLAYERS THAT FOLLOW ESPORTS, U.S., 2018-2019, % DEVICE GAMERS AGED 18+

Sports betting will result in nearly $19B in revenues to technology and media companies by 2023

SPORTS BETTING REVENUE BY TYPE, U.S., 2019E-2023E, BILLIONS USD

REVISED ACTIVATE FORECAST

INDIRECT GAMING REVENUE[1]

DIRECT GAMING REVENUE[2]

INDIRECT GAMING REVENUE

- LEAGUES/TEAMS: MLS, PGA TOUR, NFL
- TECH COMPANIES: amazon, Google, Twitter
- SPORTS TECH COMPANIES: SBTech (We Know Sports), sportradar, betgenius
- MEDIA COMPANIES: FOX, ESPN, THE ACTION NETWORK
- VENUES: Capital One Arena, MSG, STAPLES Center

DIRECT GAMING REVENUE

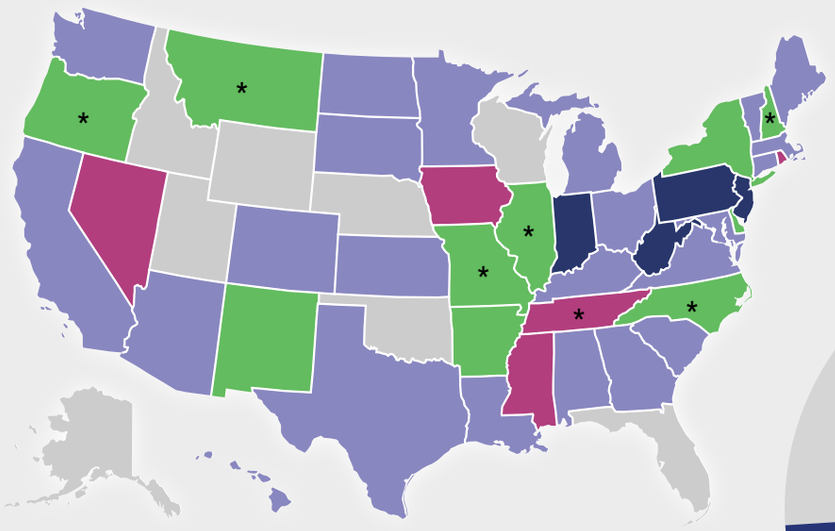

- SPORTSBOOKS: FANDUEL, William Hill, DRAFT KINGS
- CASINOS: MGM GRAND LAS VEGAS, CAESARS ENTERTAINMENT
- STATES[3]

1. Determined as a ratio of direct gaming revenue comprised of media rights, advertising, sponsorships, and data rights.
2. Share of the total amount wagered and depends on odds, type of wager, and individual sportsbooks. The betting provider's take rate ranges from 4-36% of total amount wagered.
3. State taxes are assessed as a share of the total amount wagered, a share of gross gaming revenue (ranges from 7-51% depending on the state and type of betting), and gaming licensing fees.

Sources: Activate analysis, Bureau of Economic Analysis, Eilers & Krejcik Gaming, Legal Sports Report, The Lines, Nevada Gaming Control Board

Our projections rely on the eventual ubiquity of remote mobile online sports betting in legalized states, which will increase the number of in-game wagers

SPORTS BETTING LEGALIZATION STATUS, U.S., 2019, BY STATE[1]

24 states
Current/Pending Legislation

10 states
Legal, No Mobile[2]

5 states
On-Premise Mobile[2]

4 states
Remote Mobile

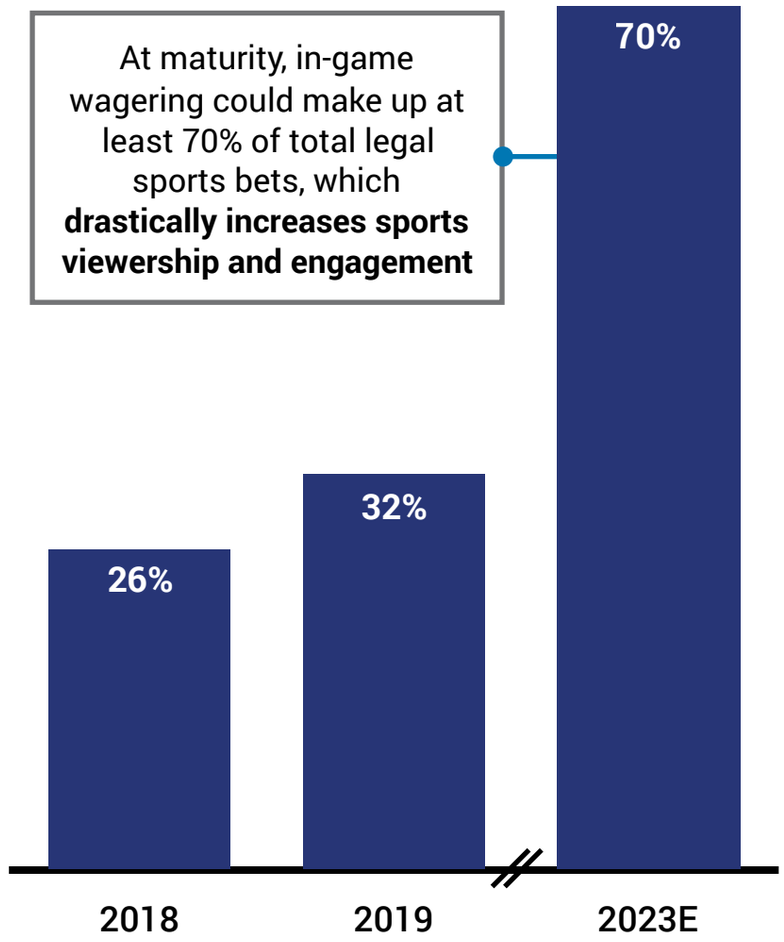

IN-GAME WAGERING[3], U.S., 2018-2023E, % TOTAL BETS

ACTIVATE FORECAST

THE ACTION NETWORK

At maturity, in-game wagering could make up at least 70% of total legal sports bets, which **drastically increases sports viewership and engagement**

1. Including Washington, D.C. 2. States with asterisks are legal but have not yet launched. 3. "In-game wagering" defined here as bets placed in and after the game start hour, including in-play wagers.
Sources: Activate analysis, The Action Network, American Gaming Association, Eilers & Krejcik Gaming, Las Vegas Review Journal, Legal Sports Report, PlayUSA, The Wall Street Journal

In the last year, major media companies, leagues, and tech players have made moves to take advantage of the sports betting opportunity

MEDIA PLAYERS

FOX FOXBET THE STARS GROUP
Launched **full-service sports betting platform and app** with The Stars Group

NBC WASHINGTON WIZARDS
Integrated in-game sports betting information and **interactive prediction element** for select Washington Wizard games

ESPN ESPN DAILY WAGER
Added **24/7 sports betting news** on ESPNEWS which complements The Daily Wager betting show

BARSTOOL SPORTS BARSTOOLBETS
Introduced **full-service online sportsbook**, Barstool Bets, in addition to existing content and podcasts

SPORTS LEAGUES

NBA William HILL
Announced partnership with William Hill to be an **authorized sports betting operator**, joining other sportsbooks Fanduel, MGM, and Stars

sportradar NFL
Gained the **exclusive right to sell NFL data to casinos** and sportsbooks worldwide

FANDUEL MAJOR LEAGUE BASEBALL
Signed deal to become **authorized MLB gaming operator**, promoting more efficient in-game odds

MLS
Changed policy to become the first major league to permit **jersey and arena naming sponsorship** from sports gambling companies

TECH PLAYERS

Google
Lifted its long-held ban on gambling service advertising and **made Google and YouTube ad formats available to betting providers**

THE STARS GROUP Flutter
Announced a merger that creates the **world's largest online betting and gaming company** for a combined value of about $12B

sportradar
Launched new **programmatic advertising offering** that allows sports betting advertisers enhanced access to sports bettors

FANDUEL sportradar
Signed deal with Sportradar to become first U.S. sportsbook to offer **live match streaming within the sportsbook app**[1]

activate consulting

1. Currently limited to select soccer and tennis matches.
Sources: Activate analysis, Company press releases

Wagering on sports will take the shape of financial trading markets

- EXTRAORDINARY NUMBER OF POSSIBLE WAGERS, INCLUDING IN-GAME, PROP-BETS, AND PARLAYS
- REAL-TIME ODDS CHANGE WITH EACH PLAY
- DRAMATIC EXPANSION IN THE DATA SETS AND ANALYTICS TO INFORM DECISIONS
- WHEN LEGAL, INSTITUTIONAL INVESTORS WILL POOL ASSETS AND BEGIN TO PARTICIPATE IN THE MARKET

What still needs to happen for sports betting to achieve its full potential?

Federal regulation to permit interstate mobile gaming

Network performance and reliability to enable real-time betting

Sufficiently low tax rates or revenue sharing agreements to incentivize sportsbook operators to participate

Global standards around sports wagering across nations to enable a global market

Accurate and officially sanctioned sports data to allow leagues and teams to profit

Overall, interest in sports remains high — more than 2/3 of the U.S. population follow at least one sport

SPORTS FANDOM, U.S., 2019, % ADULTS AGED 18+

NUMBER OF SPORTS FOLLOWED, U.S., 2019, % SPORTS FANS[1] AGED 18+

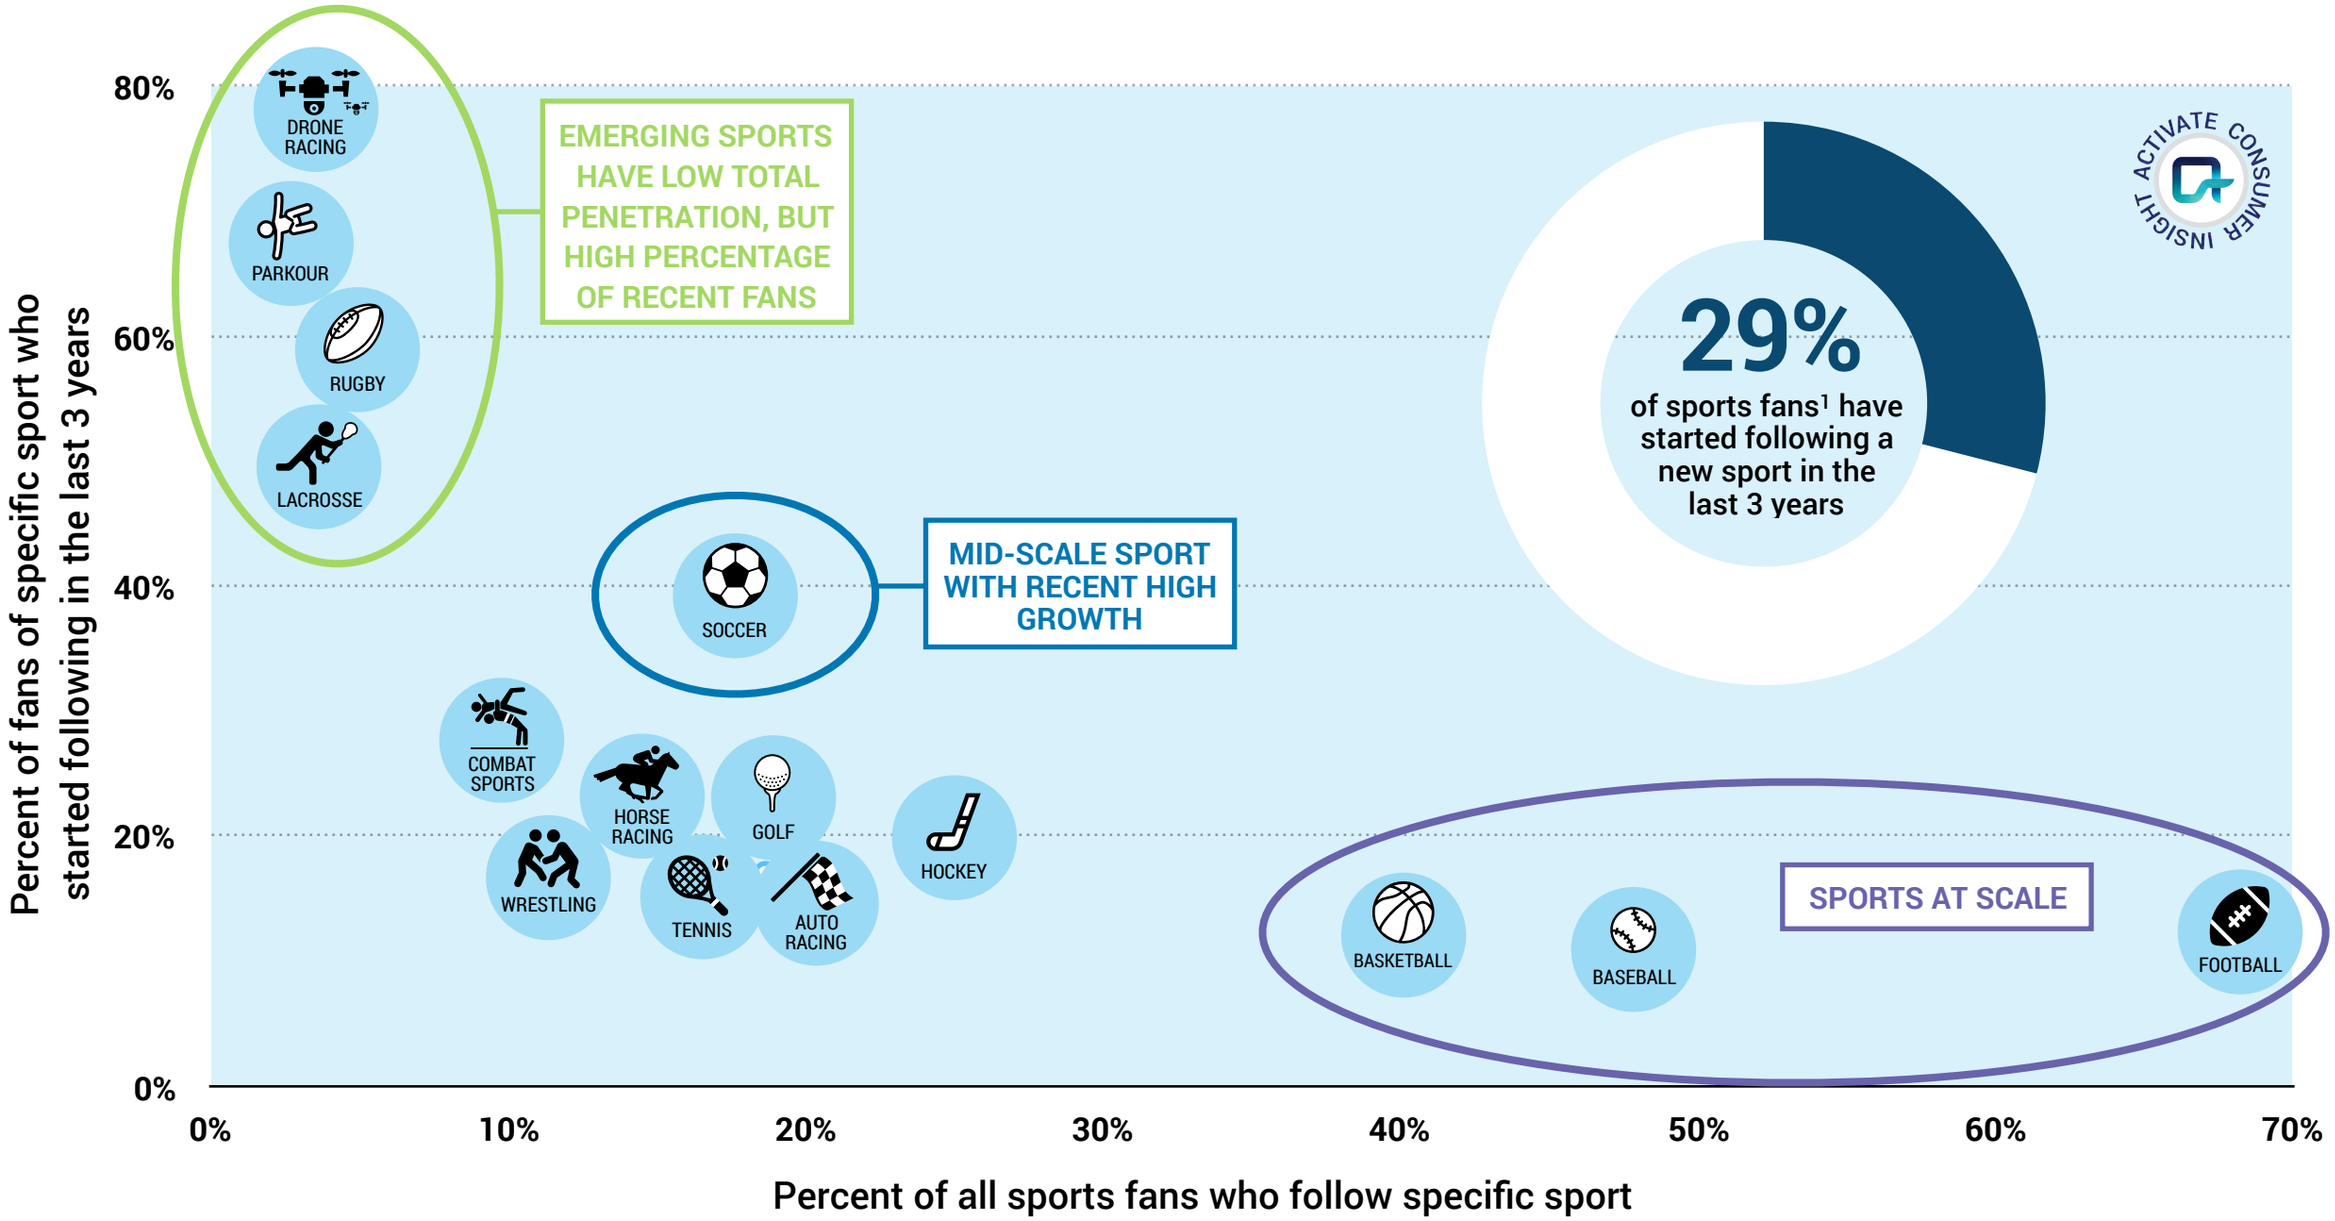

Average number of sports followed by sports fans:

1. “Sports fans” defined as followers of at least one sport.
Sources: Activate analysis, Activate 2019 Consumer Tech & Media Research Study (n = 4,006)

There is significant appetite to follow an emerging sport — 29% of sports fans have started following a new sport in the last 3 years

SPORTS FOLLOWED AND DURATION OF FANDOM, U.S., 2019, % SPORTS FANS[1] AGED 18+

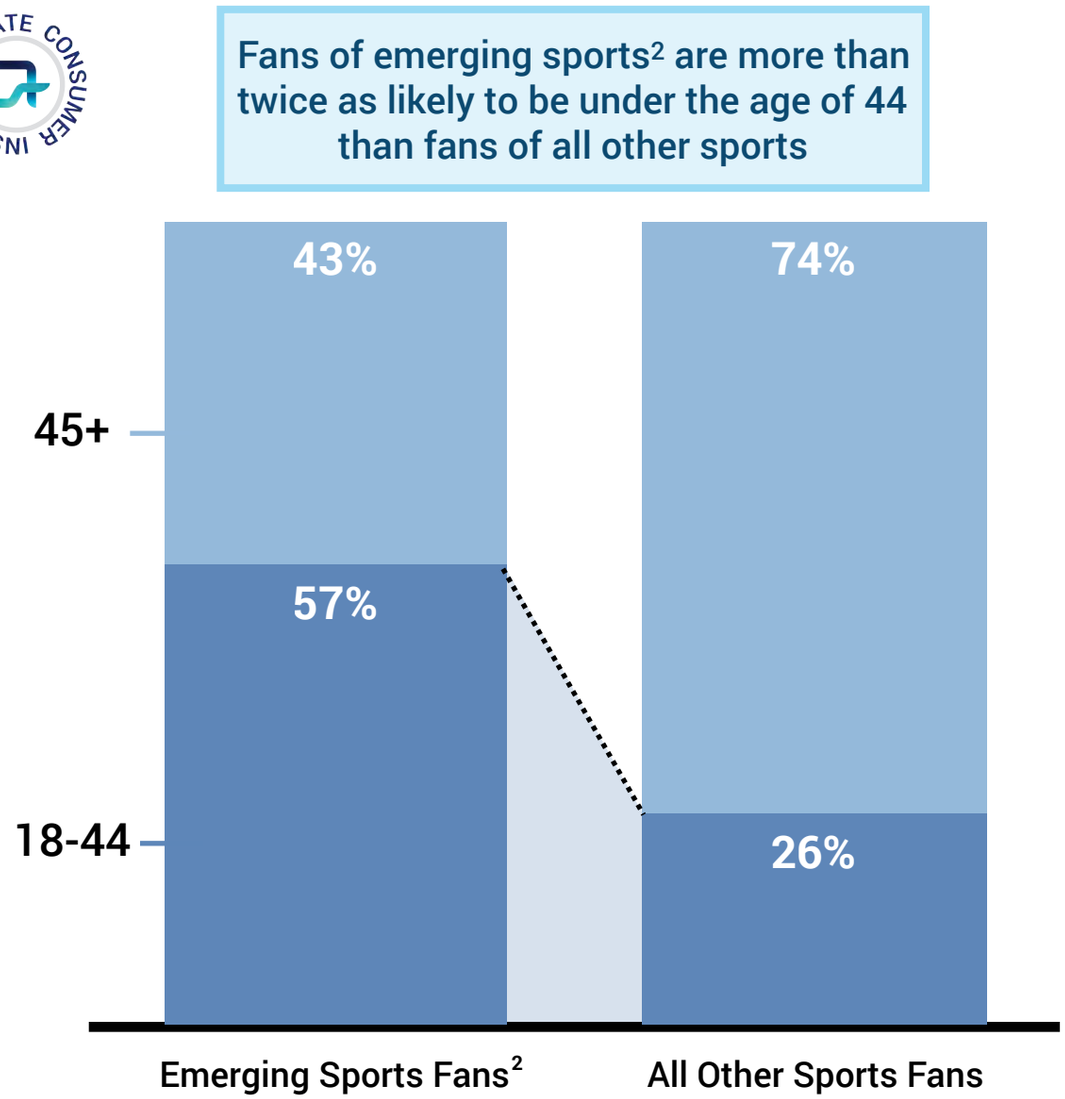

activate consulting

1. "Sports fans" defined as followers of at least one sport.
Sources: Activate analysis, Activate 2019 Consumer Tech & Media Research Study (n = 4,006)

The most popular emerging sports are driven primarily by younger fans

AGE OF SPORTS FANS, U.S., 2019, % SPORTS FANS[1] AGED 18+

Fans of emerging sports[2] are more than twice as likely to be under the age of 44 than fans of all other sports

SELECT EMERGING SPORTS

Drone Racing

The racing of unmanned vehicles through obstacle courses – established in 2015 and has had 57M total viewers across ESPN and NBC

Parkour

Also known as freerunning – an athletic activity that involves agile movements through physical environments (e.g. jumping and climbing)

Rugby

Traditionally an international sport – has grown in the U.S. market with two leagues – MLR is adding 3 teams in 2020 for a total of 12

Lacrosse

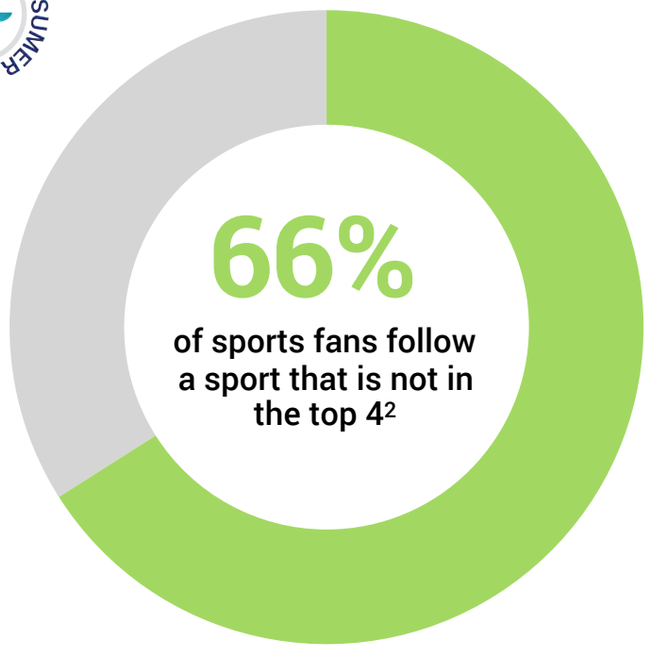

Has a growing national audience – the Professional Lacrosse League was established in 2018

1. "Sports fans" defined as followers of at least one sport.
2. "Emerging sports fans" defined as fans who follow at least one of the following: drone racing, parkour, rugby, or lacrosse.

Sources: Activate analysis, Activate 2019 Consumer Tech & Media Research Study (n = 4,006), Company sites

To reach this younger audience, major media channels are carrying emerging sports, and in many cases have secured brand sponsorships

FOLLOWING OF NON-TOP 4 U.S. SPORTS,
U.S., 2019, % SPORTS FANS[1] AGED 18+

SPORT	LEAGUE / GOVERNING BODY	MEDIA COVERAGE	MAJOR SPONSORS/PARTNERS
Bull Riding	PBR	CBS SPORTS 2012 – 2028	Jack Daniel's Old No. 7, Coors, CAT, Boot Barn
Climbing	USA Climbing	ESPN 2019; Olympics 2020	The North Face, CLIF, RISE Nitro Brewing Co.
Cornhole	American Cornhole League	ESPN 2017 – 2020	Johnsonville, hims, Harrah's Cherokee Casino Resort
Drone Racing	DRL The Drone Racing League	Twitter 2019; NBC Sports 2019; ESPN 2016	BMW, COX, Allianz, swatch, U.S. Air Force
Lacrosse	PLL, MLL	NBC Sports 2019 (PLL)	vineyard vines, adidas, Gatorade, Capital One
Parkour	HG, WFPF	Olympics 2024E	N/A
Rugby	USARL, MLR Major League Rugby	ESPN 2018; CBS SPORTS 2017	Toronto Wolfpack, Minelab, Paladin
Spikeball	Spikeball Roundnet Association	ESPN 2018	RHOBACK Crave Activity, KRA Drinks for Athletes

1. "Sports fans" defined as followers of at least one sport.
2. Top 4 traditional sports are football, basketball, baseball, and hockey.

Sources: Activate analysis, Activate 2019 Consumer Tech & Media Research Study (n = 4,006), Company sites

Atlanta United FC has achieved tremendous success — MLS will see continued growth with expansion teams in the next 3 years

MOST VALUABLE MLS TEAMS, U.S., 2018, MILLIONS USD

MLS EXPANSION TEAMS[2]

Inter Miami CF	Nashville SC	Austin FC	St. Louis
2020	2020	2021	2022

In just 5 years, **Atlanta** has become the most valuable team in the MLS, largely driven by its **innovative fan approach**

ATLANTA PROVIDES COMMUNITIES FOR ALL TYPES OF FANS

RESURGENCE
The most outwardly passionate fans creating a raucous in-game experience

FOOTIE MOB
Dedicated blend of Southern tailgating culture for casual followers

TERMINUS
Passionate about building support for the greater soccer community

FACTION
Family-centric group of fans

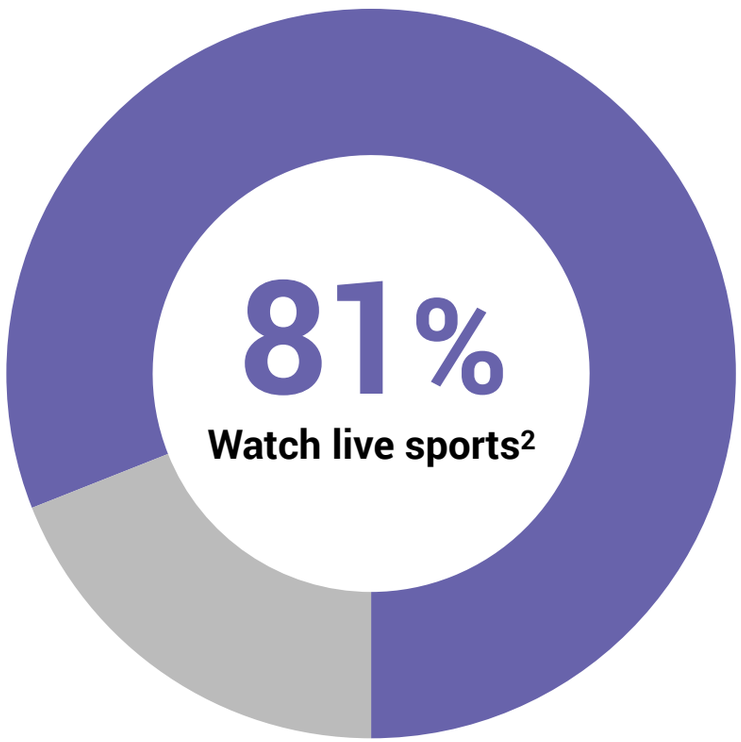

activate consulting

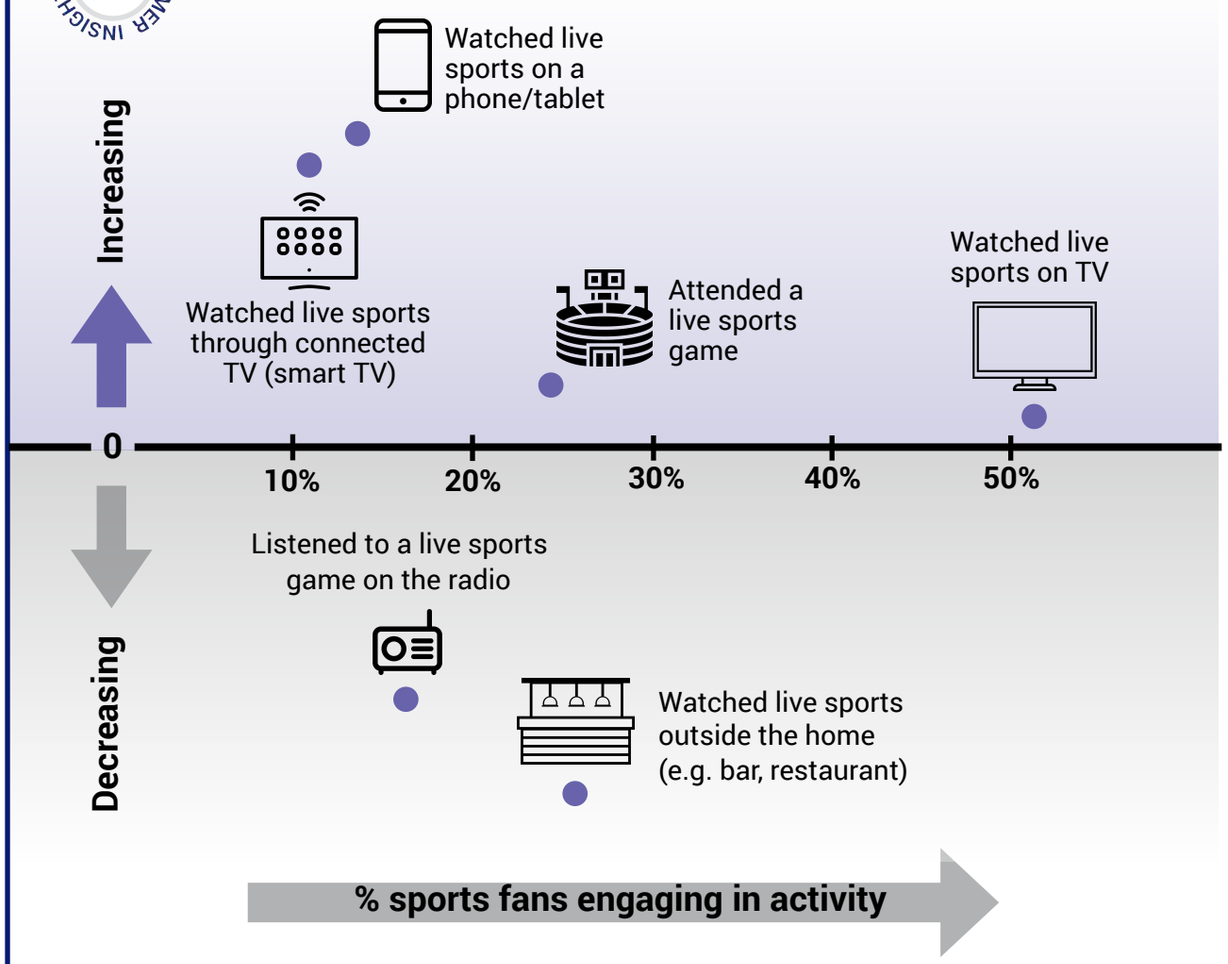

1. Los Angeles Football Club played first game in 2018.
2. Rumored expansion teams: Sacramento, Las Vegas, Charlotte, Phoenix, Raleigh, Detroit, San Diego, Tampa, and Indianapolis.
Sources: Activate analysis, Company sites, Forbes, Sports Illustrated

Live sports viewership, across many platforms, has largely increased in the past year

OVERALL LIVE SPORTS VIEWERSHIP,
U.S., 2019, % SPORTS FANS[1] AGED 18+

YEAR-OVER-YEAR LIVE SPORTS CONSUMPTION BY TYPE,
U.S., 2019, % SPORTS FANS[1] AGED 18+

1. "Sports fans" defined as followers of at least one sport.
2. Including those who watch live sports broadcast on all media formats, and live game attendance.
Sources: Activate analysis, Activate 2019 Consumer Tech & Media Research Study (n = 4,006)

As more viewers migrate to digital platforms, multicasts will serve diverse audiences who differ in their motivations for viewing sports

A **multicast** is the simultaneous airing of a sports game over different media channels (TV, digital, social) with separate announcers, personalities, and themes, **to broaden reach and offer a customized viewing experience**

EXAMPLES:

FEATURES OF MULTICAST EXPERIENCE

Specific broadcasts focused on sports wagering with expert **betting** announcers

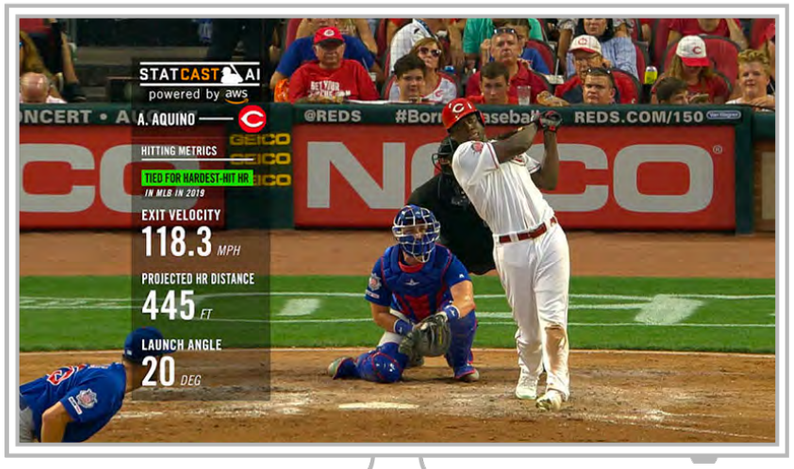

Dedicated broadcasts with different **language options**, especially around global sports like soccer and basketball

Broadcasts across social and digital platforms (e.g. Amazon Prime, Facebook Watch) to gain access to **younger audiences**

Player-specific broadcasts to **follow players** in-game and track their movements — bettors will use this feature to place player-specific wagers

Sources: Activate analysis, Axios, Multichannel News, The Washington Post

Statistics will improve team decision-making, enhance the fan experience, and enable in-game wagering

Statistics offered through Stat Cast[1]:

- Arm strength
- Catch probability
- Distance needed
- Sprint speed
- Exit velocity

Second Spectrum enabled capabilities:

- Statistics data overlays
- Data visualization
- Streaming video interactive apps
- Augmented reality

Next Gen Stats[1] uses chips embedded into player jerseys/equipment and historic data to capture:

- Expected catch rate
- Expected yards after catch
- Completion probability
- Fastest sacks

TAKEAWAYS

Teams and Player Decision-Making

Improved game day decision-making through enhanced performance data

Fan Experience

Personalized games and higher viewer engagement through data visualization and augmented reality

In-Game Wagering

Informed in-play wagering through superior stats and data insights[2]

Podcast listening has become an increasingly prevalent consumer behavior — we forecast that listeners will almost double

MONTHLY PODCAST LISTENERS, U.S., 2013-2023E, MILLIONS LISTENERS AGED 12+

Sources: Activate analysis, Activate 2019 Consumer Tech & Media Research Study (n = 4,006), Apple World Today, Apple Worldwide Developers Conference 2018, Automotive News, Bureau of Economic Analysis, Car & Driver, Cox Automotive, Digital Trends, Edison Research, Nielsen, Pew Research Center, Scarborough Research, U.S. Census Bureau

There is an explosion of podcasts from a broad set of creators, both media professionals and amateurs

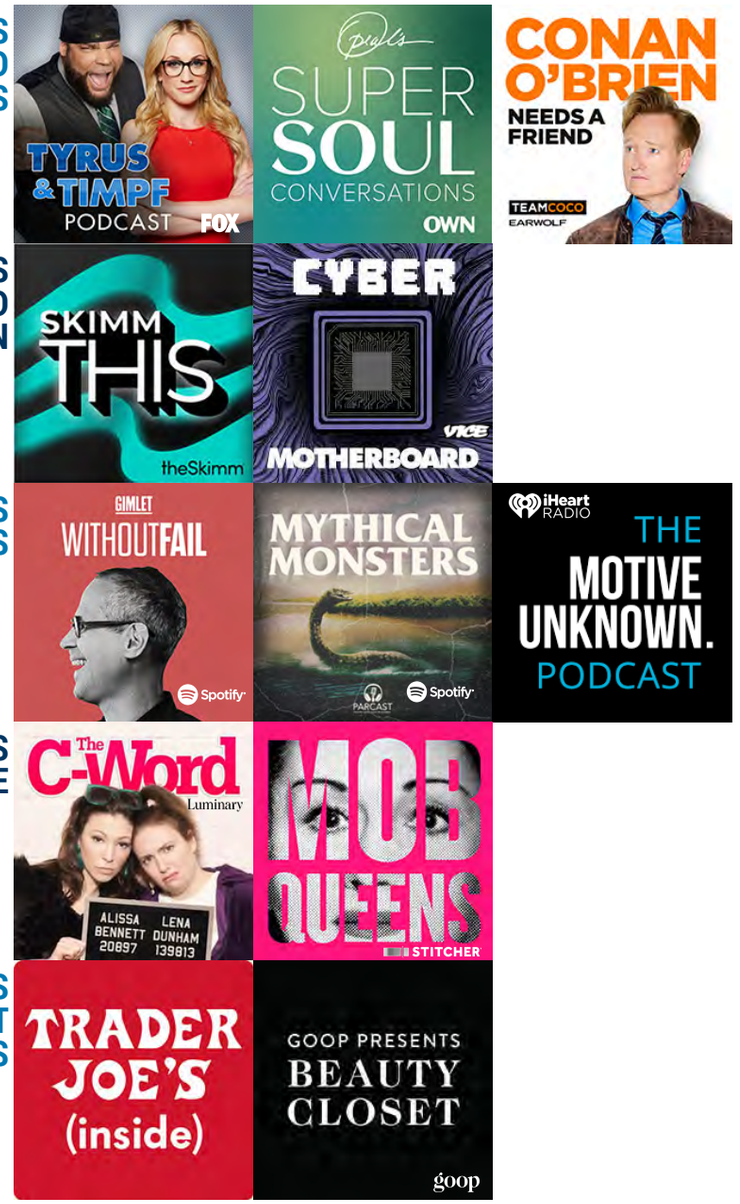

TRADITIONAL MEDIA COMPANIES EXTENDING THEIR REACH AND TESTING NEW FORMATS

DIGITAL-FIRST MEDIA COMPANIES RUNNING PODCAST-FOCUSED DIVISION

AUDIO-NATIVE PLATFORMS TARGETING NICHE MARKETS

PODCAST-NATIVE PLATFORMS LOOKING TO EXPAND COVERAGE

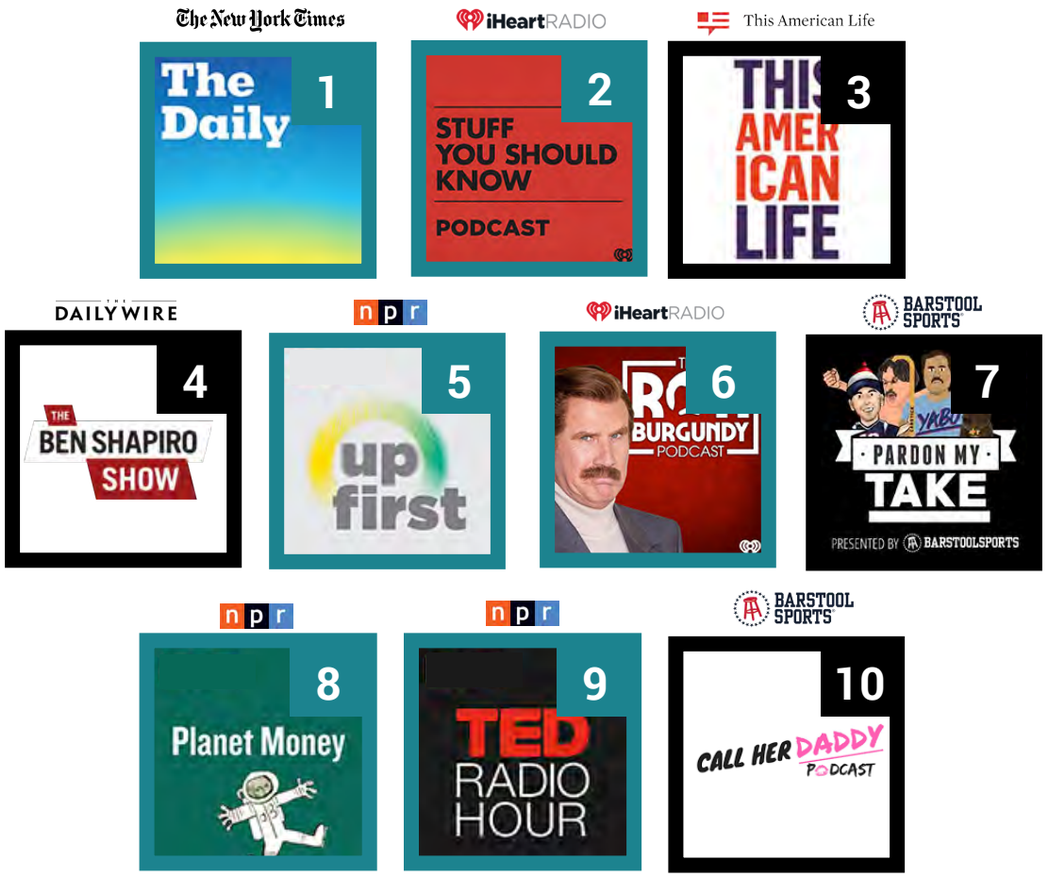

NON-MEDIA COMPANIES AIMING TO DRIVE ENGAGEMENT WITH THEIR CUSTOMERS

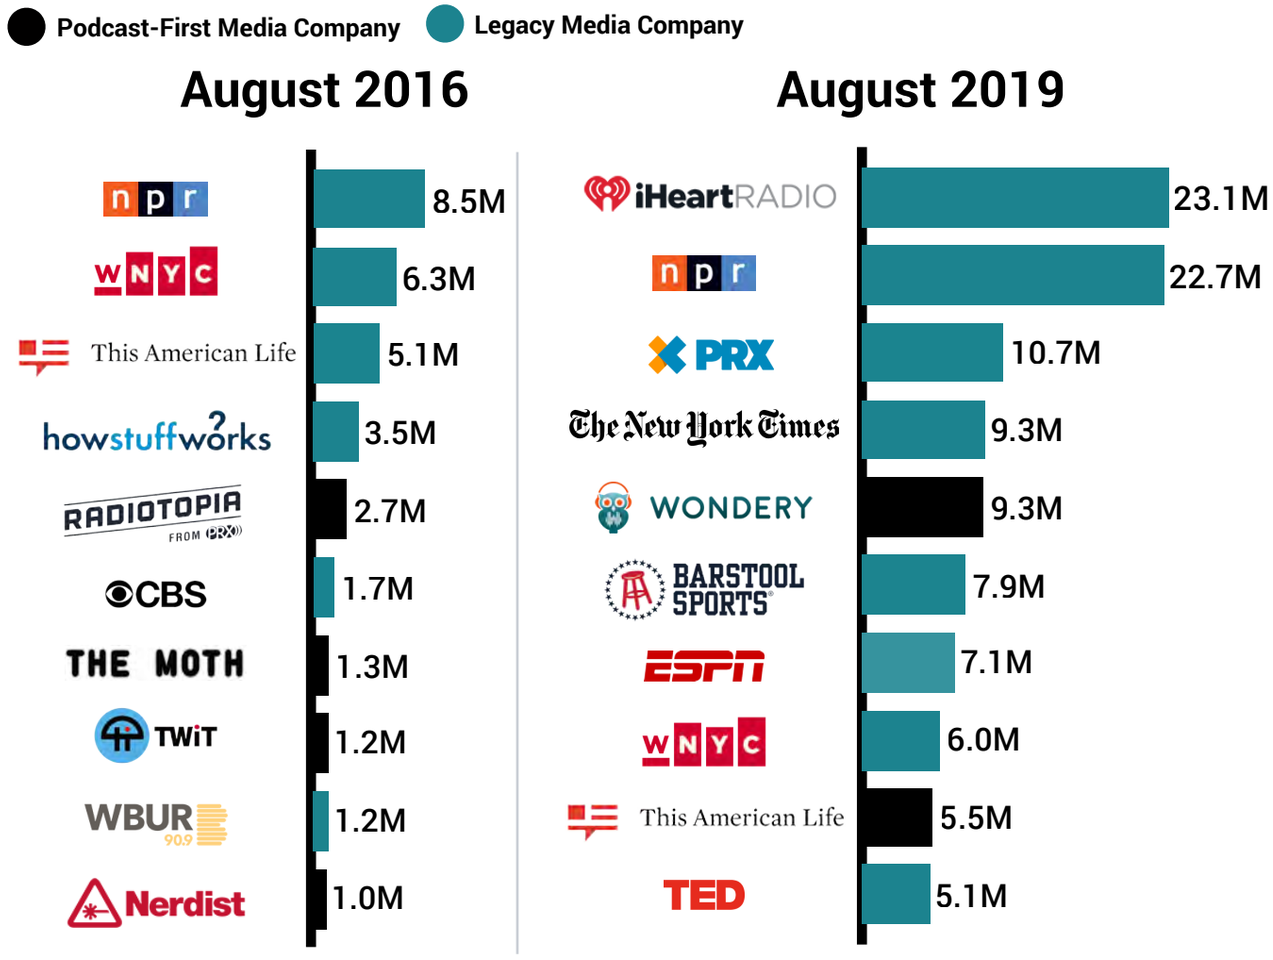

1. As of June 2019.
Sources: Activate analysis, Apple Worldwide Developers Conference 2018, Chartable, Edison Research, Foundation Digital, Podcast Insights

We expect that the traditional media companies, which capture a significant share of listening, will continue to dominate engagement

TOP PODCASTS BY UNIQUE MONTHLY AUDIENCE, AUG. 2019, U.S., RANKING

TOP PODCAST PUBLISHERS BY UNIQUE AUDIENCE, AUG. 2016 VS. AUG. 2019, U.S., MILLIONS LISTENERS

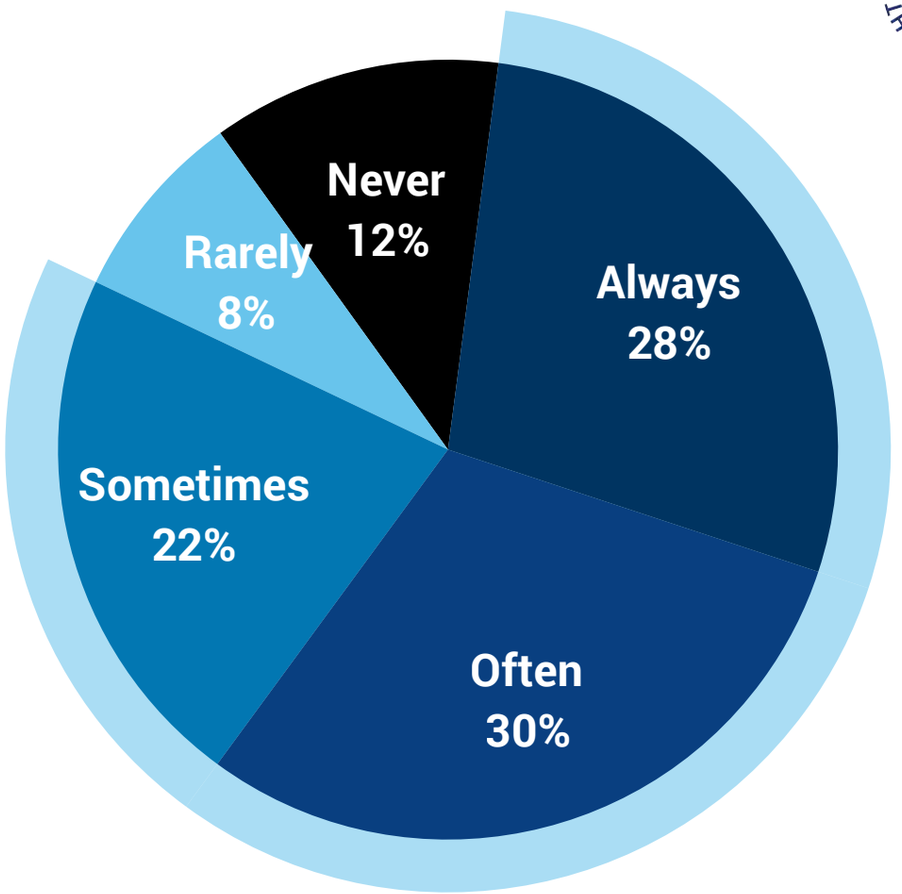

Legacy media companies represent more than half of top publishers and top podcasts

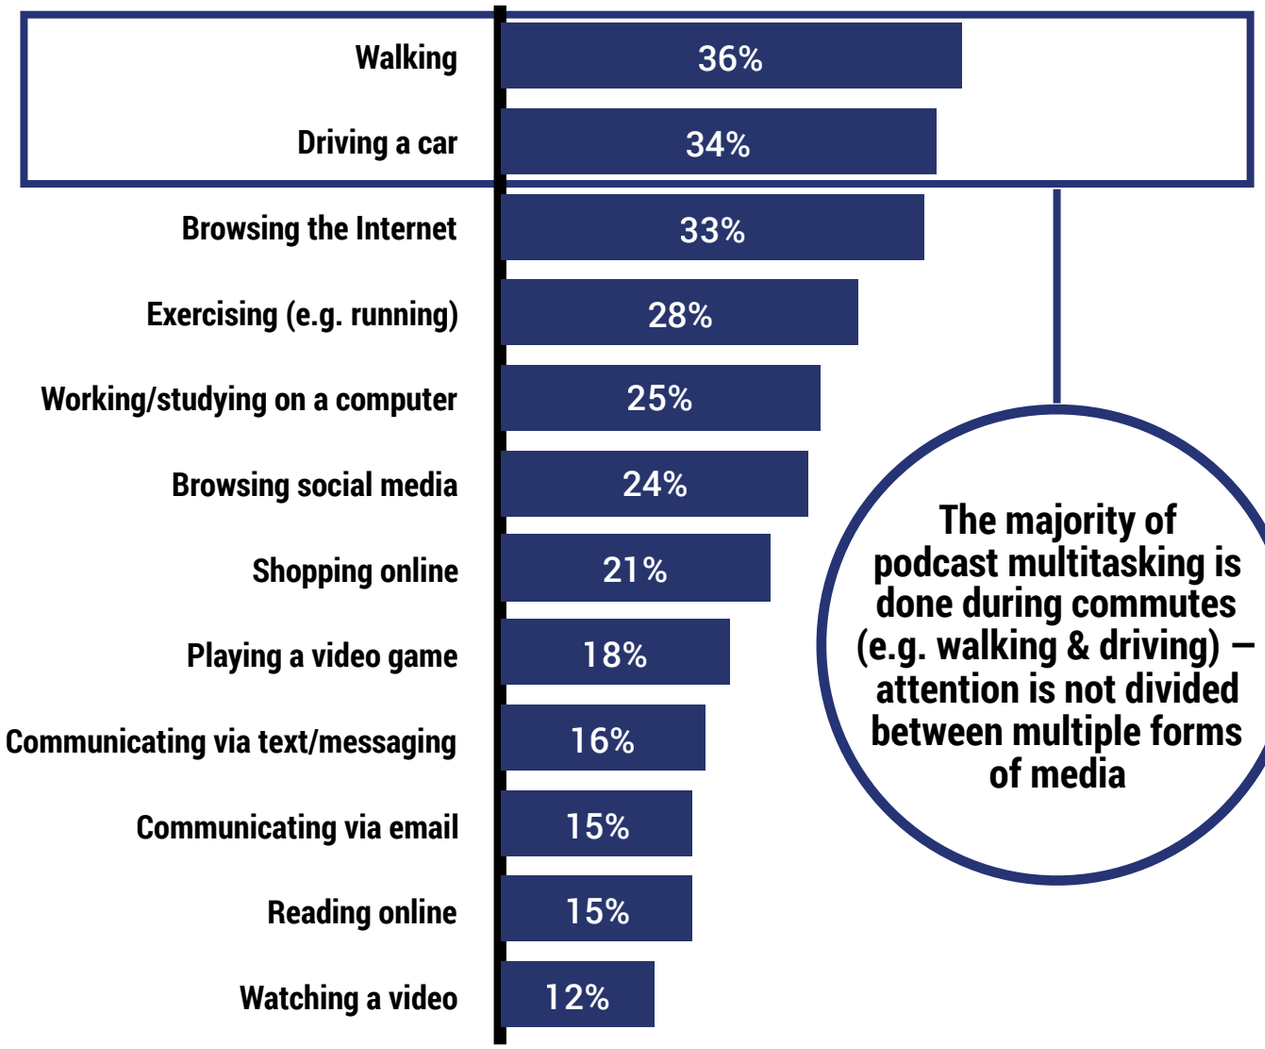

Sources: Activate analysis, Podtrac

Multitasking is common among podcast listeners — engagement will be strong as the top multitasking activities allow for focused listening

FREQUENCY OF MULTITASKING WHILE LISTENING TO PODCASTS, U.S., 2019, % PODCAST LISTENERS AGED 18+

TOP MULTITASKING ACTIVITIES WHILE LISTENING TO PODCASTS, U.S., 2019, % MULTITASKING PODCAST LISTENERS AGED 18+

The majority of podcast multitasking is done during commutes (e.g. walking & driving) — attention is not divided between multiple forms of media

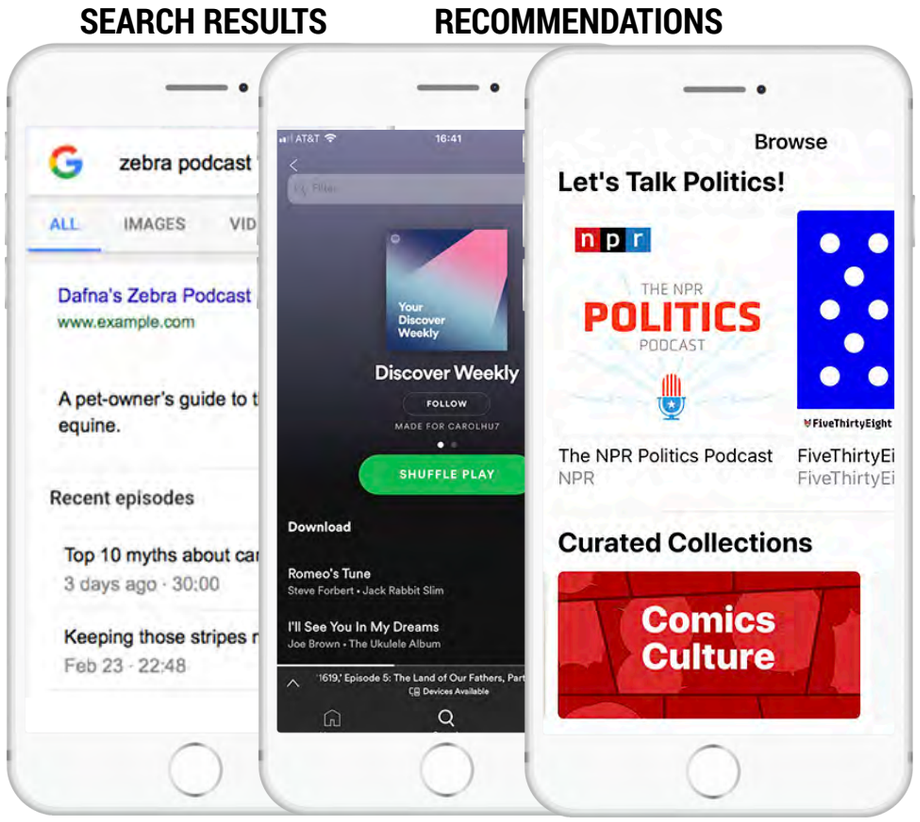

activate consulting

Sources: Activate analysis, Activate 2019 Consumer Tech & Media Research Study (n = 4,006)

New listening experiences and improved discovery features fuel audience growth and engagement

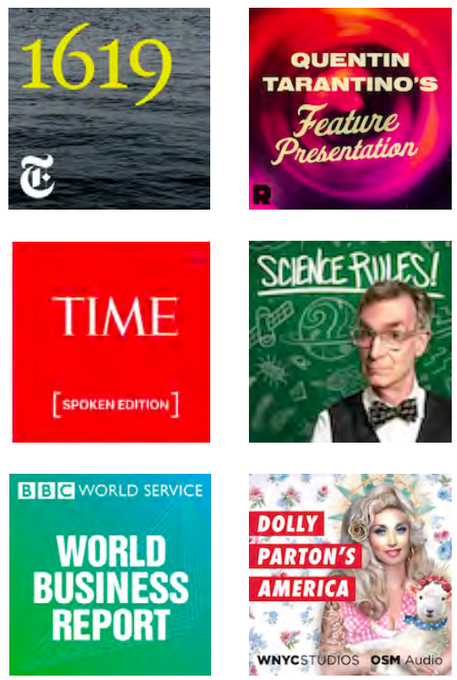

BETTER DISCOVERY TOOLS

Podcast integration into Google search results, Apple recommendations, and Spotify playlists will increase listening by helping listeners find new and relevant content

Established media companies and celebrities are bringing new content and formats to podcasts (e.g. daily news digest, entertainment news)

MEDIA & CELEBRITIES

IMPROVED TECHNOLOGY

A great deal of listening happens on smart speakers — improved functionality and integration will increase it even more

Further integration of CarPlay and Android Auto will enable more in-car podcast listening

Sources: Activate analysis, Activate 2019 Consumer Tech & Media Research Study (n = 4,006)

The podcast experience will continue to shift to streaming, transforming the listening experience

DOWNLOADED EXPERIENCE

Podcast app comes pre-installed on iPhones

Podcast app is separate from other Apple media apps

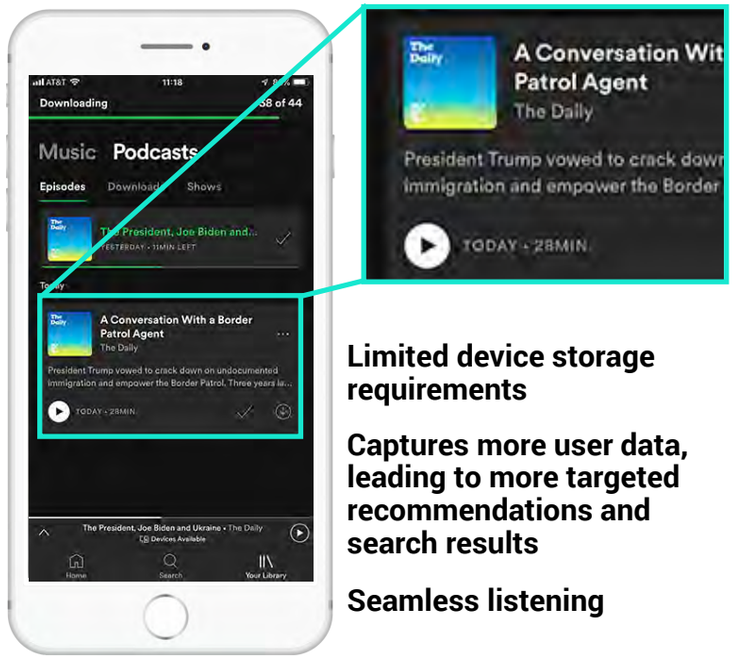

Expending device storage space

Unauthenticated listening

Limited tracking on:
- Whether or not the podcast is listened to
- Ad skipping
- Audience insights

CHALLENGES WITH DOWNLOAD
- Poor podcast search and discovery experience
- No personalization
- Measurement challenges (downloads only)
- Limited listener data (only captured through surveys)
- No ad refresh (i.e. ads are baked into the podcast)

STREAMED EXPERIENCE

Limited device storage requirements

Captures more user data, leading to more targeted recommendations and search results

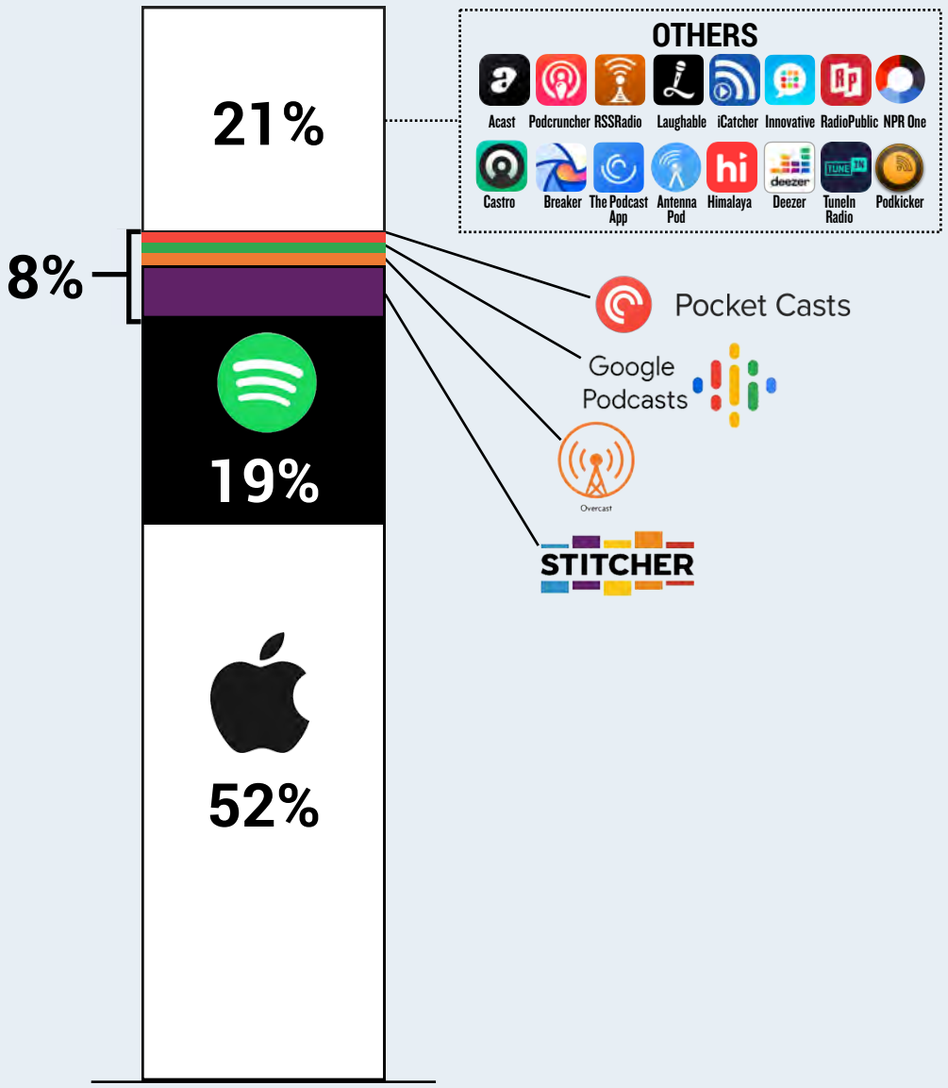

Seamless listening

IMPLICATIONS OF STREAMING
- Integration of music and podcasts
- Improved podcast discovery by applying streaming music features (e.g. personalized recommendations)
- Real-time engagement measurement
- Additional listener data from authenticated listening
- Dynamic insertion and ongoing ad refresh and targeting

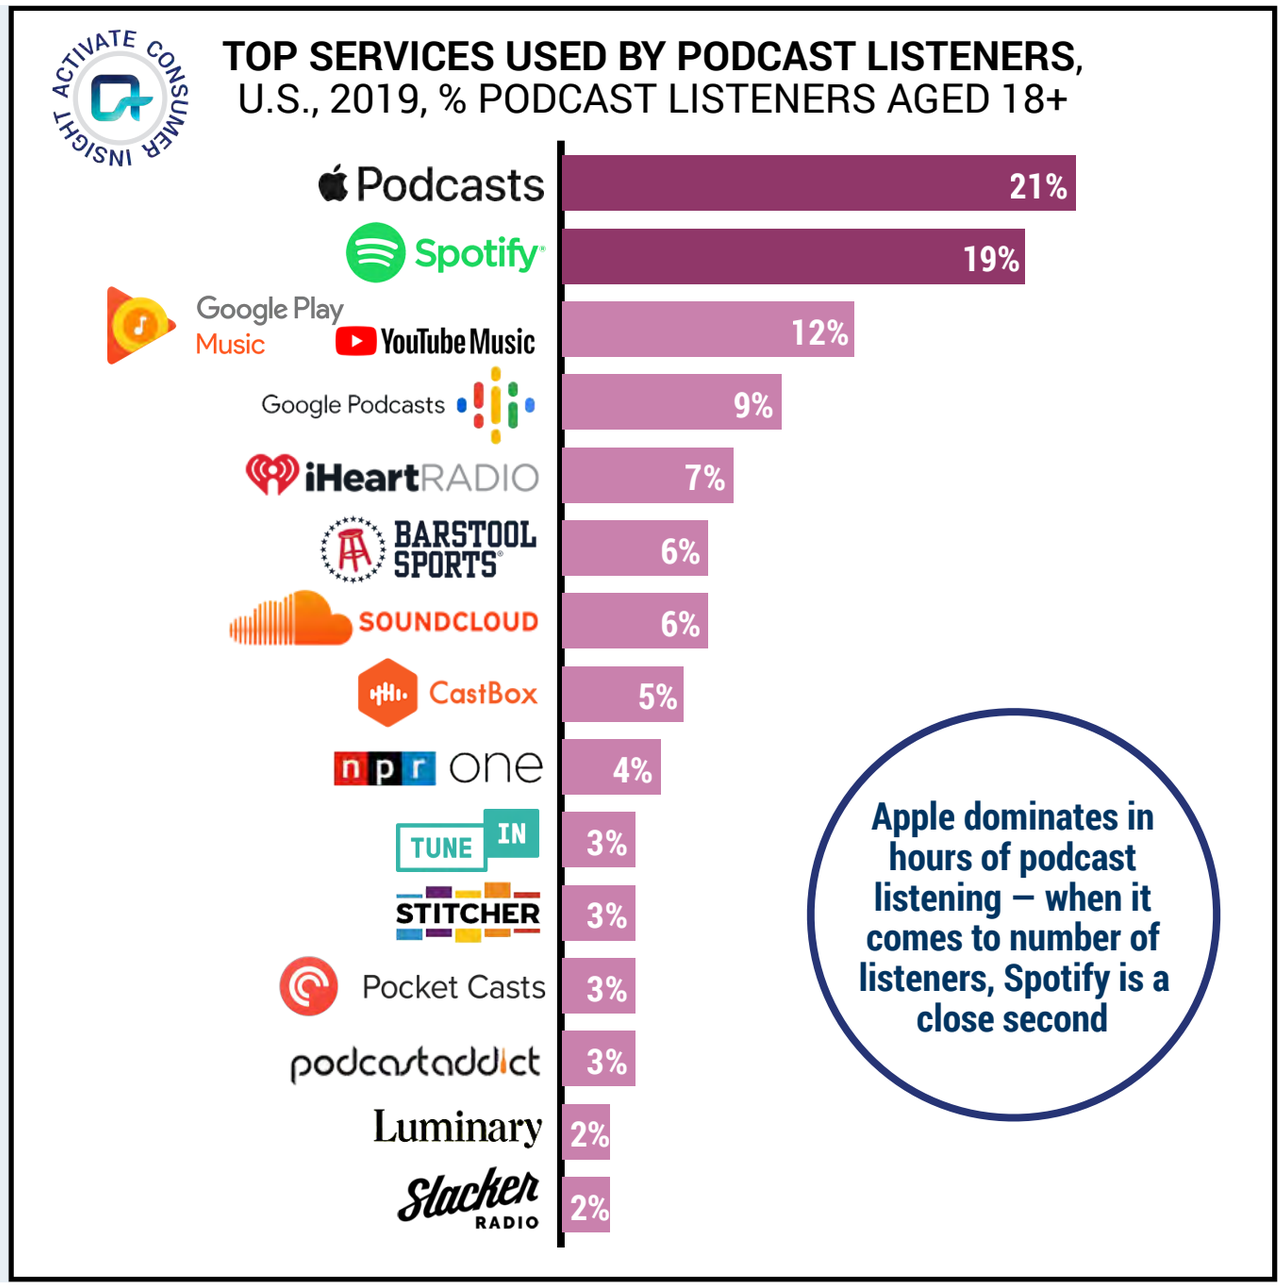

Source: Activate analysis

While hosting platforms indicate that Apple Podcasts accounts for the majority of listening, our consumer research points to significant tailwinds for other apps, including Spotify

CONSUMPTION OF ANCHOR-DISTRIBUTED PODCASTS BY PLATFORM,
GLOBAL, SEPT. 2018, % CONSUMPTION

TOP SERVICES USED BY PODCAST LISTENERS,

New consumer-facing digital solutions are revolutionizing how we track, manage, and improve our physical health and fitness, allowing users to create 'The Networked Body'

	THEN	NOW: THE NETWORKED BODY
CONTENT	Limited number of gyms, workout classes, personal trainers and videos, based on location and availability	Remote on-demand access to personal trainers and classes
TECH	Limited functionality and use cases of early tracking devices	Sophistication in hardware and software leading to better performance and accuracy
COST	High cost per use case / tracking function	Multi-functional devices at affordable and decreasing prices
SOCIAL	Difficult to share performance with others	Built-in social sharing functionality and social norms pushing wellness trends
BUSINESS MODELS	In-person health and nutritional consultations and membership-based/pay-per-class workout locations	On-demand health and wellness support, and subscription-based home workout solutions with social elements

Health-focused wearables will continue to make incremental advancements and adopt newer, more familiar forms

Consumers discover new digital finance products through a number of channels, including the network effects of existing users

CHANNEL THROUGH WHICH USERS FIRST HEARD ABOUT THEIR CURRENT DIGITAL FINANCE PRODUCTS,
U.S., 2019, % USERS OF DIGITAL FINANCE PRODUCTS AGED 18+

Sources: Activate analysis, Activate 2019 Consumer Tech & Media Research Study (n = 4,006)

Our research indicates that consumer adoption of next generation services is primarily driven by superior ease of use and, to a lesser extent, low cost and attractive terms

REASONS FOR ADOPTION OF DIGITAL FINANCE PRODUCTS, U.S., 2019, TOP 3

1. Ease of use
2. Low cost/fees
3. Attractive terms

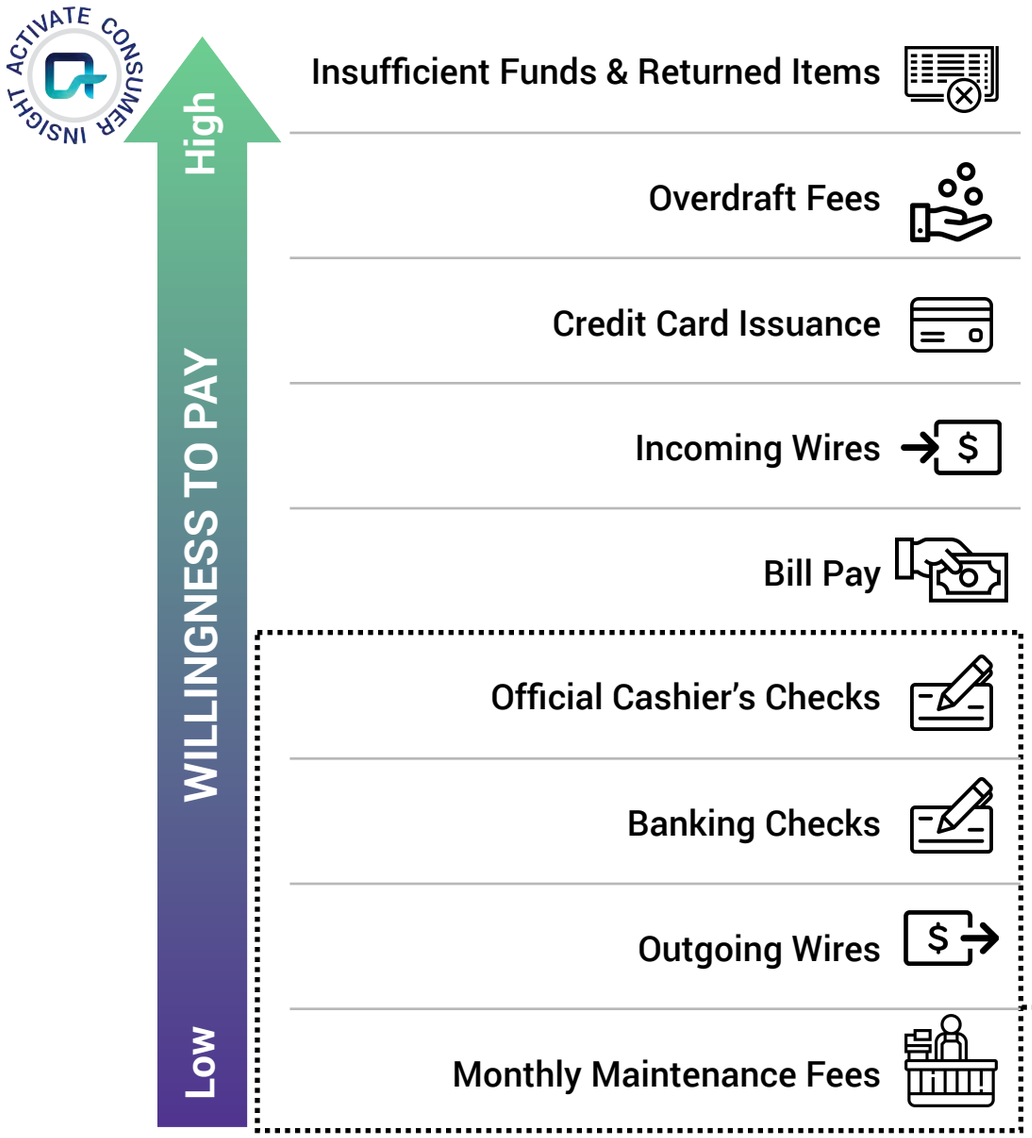

BORROW	BANK (E.G. HOLD/SAVE MONEY)	INVEST	PAY	MANAGE MONEY
Kabbage	monzo	robinhood	PayPal	intuit mint
PROSPER	chime	acorns	G Pay	tally
affirm	N26	wealthfront	Pay	honeydue
SoFi	Revolut	Betterment	venmo	Wally

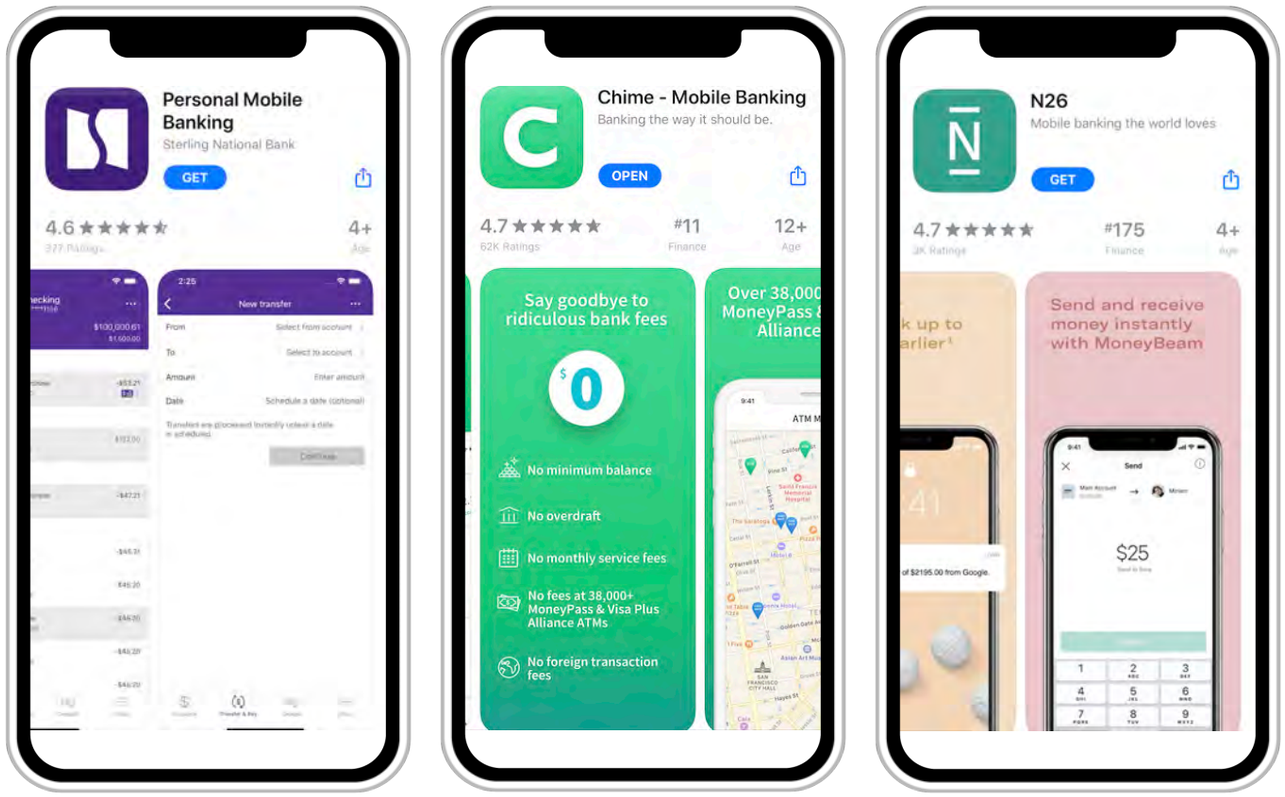

For the banking and payments categories, “transparency on terms” and “referral from a friend” are also highly cited reasons, respectively

Sources: Activate analysis, Activate 2019 Consumer Tech & Media Research Study (n = 4006)

New financial companies are upending banking, using "skinny bundles" focused on the services customers care about most

WILLINGNESS TO PAY FOR PRODUCT FEATURES BY ADULTS, U.S., 2019, RANKED 1-9 BY ADULTS AGED 18-34

Services with the lowest willingness to pay coincide with those not offered/charged for by new challenger banks

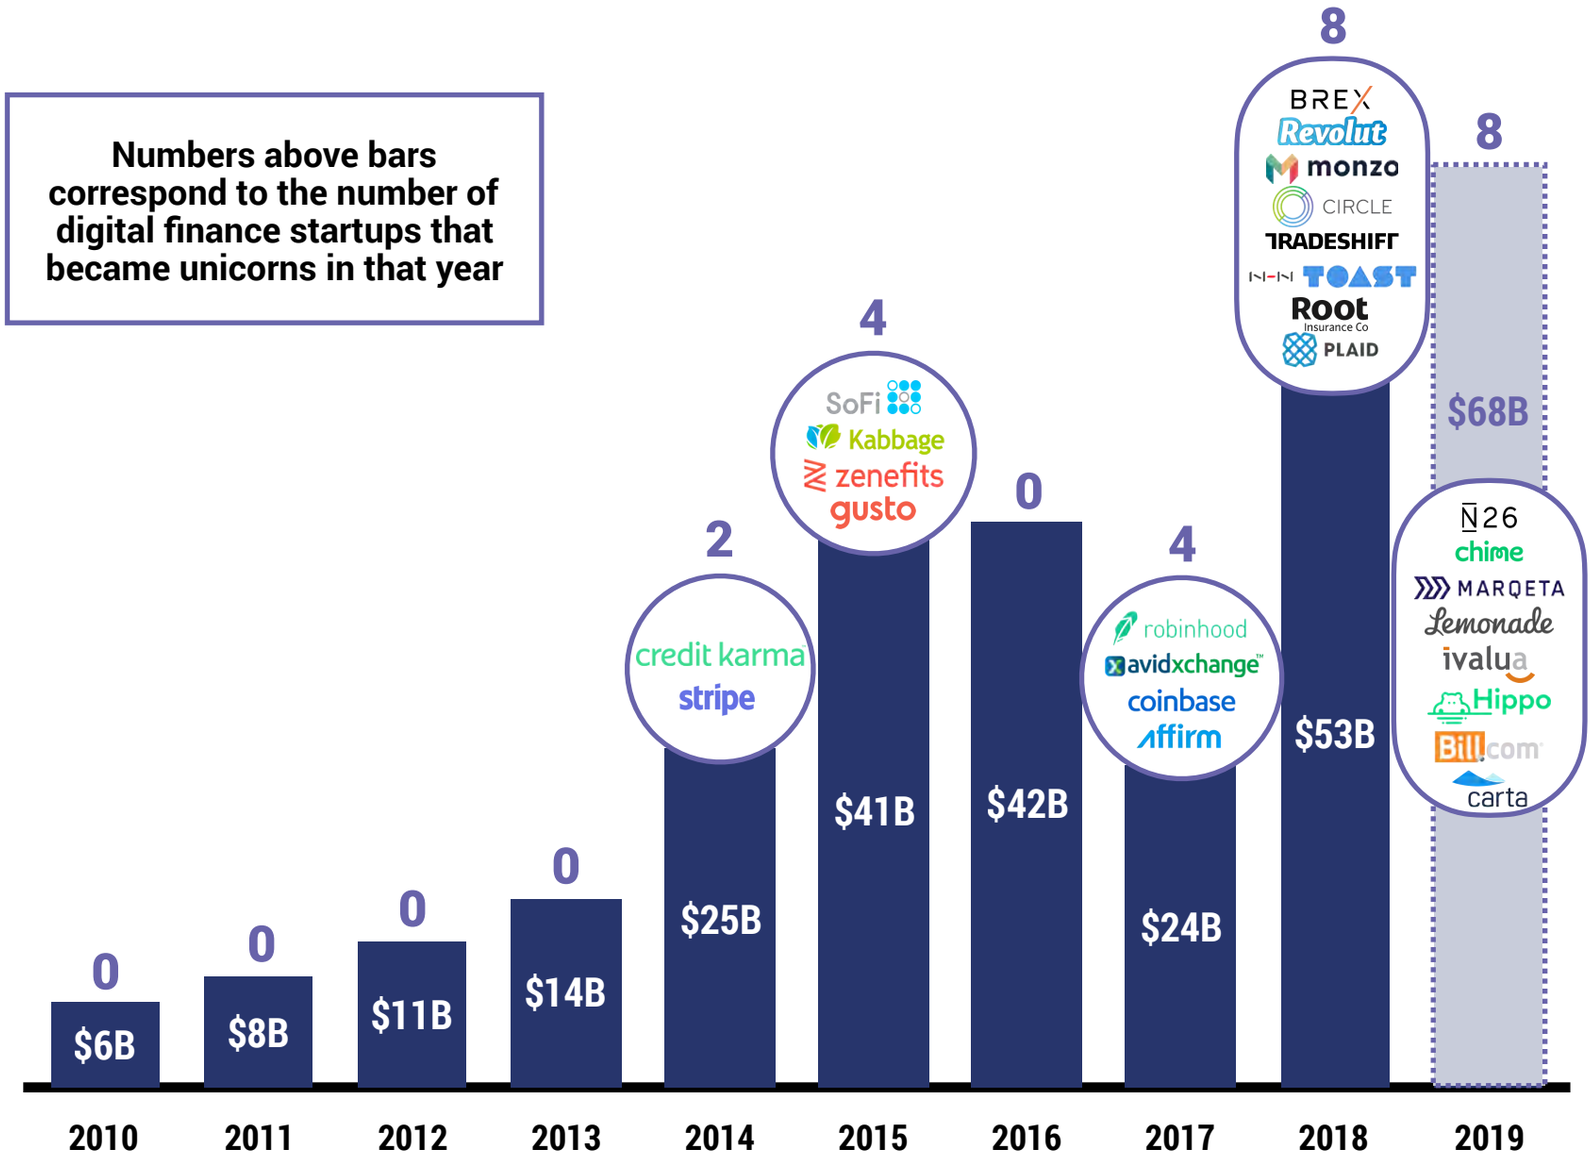

activate consulting

Sources: Activate analysis, Activate 2019 Consumer Tech & Media Research Study (n = 4,006)

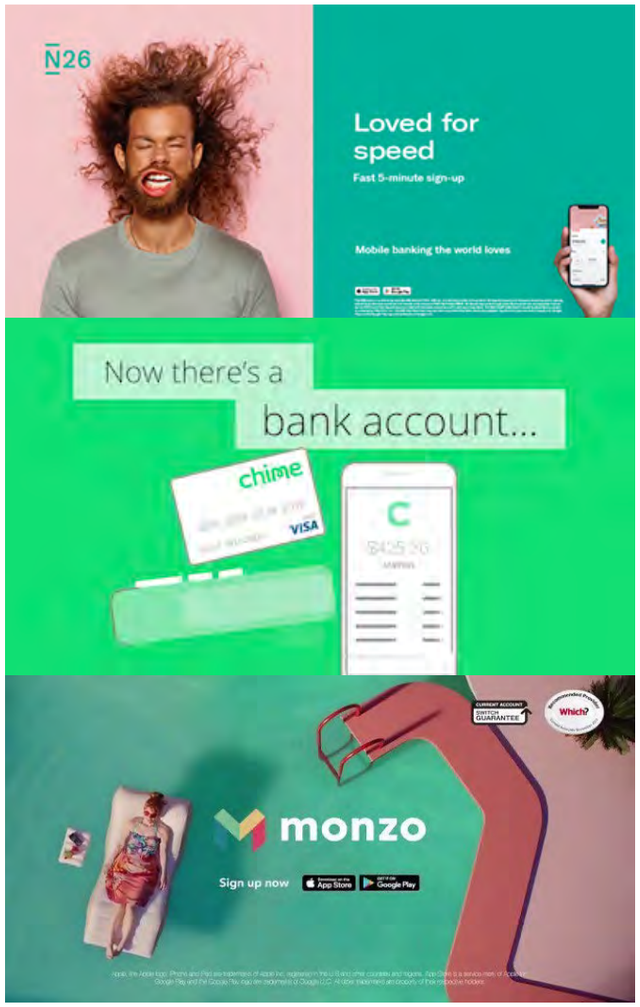

Investment money flowing into digital finance services will fuel their growth, and allow them to target large pools of consumers beyond HENRYs

NUMBER OF FINTECH UNICORNS AGAINST ALL DOLLARS INVESTED IN DIGITAL FINANCE STARTUPS ACROSS VC, PE, & M&A, U.S., 2010-2019, BILLIONS USD / NUMBER OF FINTECH UNICORNS

Numbers above bars correspond to the number of digital finance startups that became unicorns in that year

EARLY EXAMPLES OF CAMPAIGN / CUSTOMER ACQUISITION

activate consulting

Note: "HENRY" is an acronym for High Earners, Not Rich Yet.

Connectivity: Enabling the Next Wave of Technology and Media Growth	**182**

Consumers will continue to spend more on connectivity; the market is nearly $700B globally and we project it to grow even further, particularly in the U.S. with a 7.4% CAGR

B2C CONNECTIVITY REVENUES,
GLOBAL, 2019E VS. 2023E, USD

GROWING MEDIA DATA NEEDS

- More high-definition media consumption (HD requires roughly 4x more bandwidth than SD, and share of mobile video has increased by 45% from 2014-2019)
- Cross-device usage/synchronization

MORE COMPUTING VIA CLOUD/HYBRID

- 48% of U.S. consumers have used cloud storage solutions in the past year
- Cloud gaming is becoming more popular — Fortnite, which runs on AWS, has nearly 250M players globally

INCREASED USAGE OF AI WITH LARGE DATA REQUIREMENTS

- 112M people use voice assistants (such as Alexa and Siri) in the U.S.

MORE PEOPLE BROUGHT ONLINE GLOBALLY

- Roughly 4.4B people (57% of global population) are now connected to the Internet, up by 367M (9.1%) from 2018, with more growth expected

1. LEO satellites will likely be faster for high frequency trading than deep-sea cables once in full constellations for longer distances (e.g. New York City to London).
Sources: Activate analysis

Users report connectivity as a significant limitation — holding back widespread adoption of cloud gaming and AR/VR, as well as slowing adoption of more common use cases such as video streaming

PERCEPTION OF CONNECTIVITY AS A LIMITATION BY ACTIVITY, U.S., 2019, % ADULTS AGED 18+

~45%
OF U.S. POPULATION HAS ACCESS TO
ONLY 1 PROVIDER
WITH 25/3 MBPS ADVERTISED SPEEDS[3]

NEARLY
1 OUT OF 5
CONSUMERS HAVE A MEAN INTERNET SPEED
AT LEAST 20%
SLOWER THAN ADVERTISED SPEEDS[4]

1. Recording and broadcasting a live video stream of gaming content via YouTube, Twitch, Mixer, etc.
2. Live video streaming (e.g. Facebook Live, Instagram Live, Periscope), excluding video game live streaming.
3. Analysis includes Cable, Fiber, Fixed Wireless, and Other (not including Satellite or ADSL). Data from June 2018.
4. Evaluating the average results for the 13 ISPs tested in the FCC's "Eighth Measuring Broadband America Fixed Broadband Report," which together account for more than 80% of U.S. residential broadband connections.

Sources: Activate analysis, Activate 2019 Consumer Tech & Media Research Study (n = 4,006), Ars Technica, Federal Communications Commission

Requirements for reliability, bandwidth, and latency will determine which technologies are applicable to different use cases

	USE CASES	CONNECTIVITY REQUIREMENTS RELIABILITY[1]	BANDWIDTH[2]	LATENCY[3]	NEXT GENERATION TECH FIXED	MOBILE
CONSUMER USE CASES	Autonomous Cars	HIGH	MED	LOW	N/A	5G, LEO[4]
	Inflight Connectivity	MED	HIGH	HIGH-MED	N/A	
	AR/VR Games	LOW	HIGH	LOW	5G, LEO[4], FTTH	
	Mobile Multiplayer Video Games					
	Cloud-Based Gaming					
	Live Television Streaming		MED	MED		
	HD Mobile Broadcast Television				N/A	5G, LEO[4], ATSC 3.0
ENTERPRISE USE CASES	Autonomous Public Transportation	HIGH	MED	LOW	N/A	5G, LEO[4]
	Remote Control Robots				5G, LEO[4], FTTH	
	IoT Monitoring Applications		LOW			
	VR Video Conferencing	MED	HIGH	LOW		
	Wireless Collaboration Workspaces			HIGH		
	Mobile High-Frequency Trading		LOW	LOW		5G, LEO[4,5]
	Localized And Personalized Content/Ads In Broadcast Television	LOW	LOW	HIGH		5G, LEO[4], ATSC 3.0

1. Reliability determined as importance of uninterrupted Internet connection for seamless business operations or daily activities.
2. Bandwidth: High: >100 Mbps; Medium: 1-99 Mbps; Low: <1 Mbps.
3. Latency: High: 1000 ms-100 ms; Medium: 99 ms-10 ms; Low: 9 ms-1 ms.
4. At least initially, LEO will help enable connectivity, but will not be consumer-facing (e.g. will transmit directly to cell towers).
5. Applicable only for long distances (e.g. New York City to London).

Sources: Activate analysis, The Economist, GSMA Intelligence, OneWeb, The Washington Post

Companies are investing in infrastructure and operational requirements to enable 5G, LEO satellites, and FTTH

	5G	LEO SATELLITES	FIBER TO THE HOME
CURRENT STATE	**5G coverage by company:** • Verizon: 9 U.S. cities • AT&T: 20 U.S. cities • T-Mobile: 6 U.S. cities • Sprint: 5 U.S. cities	• OneWeb's launch of 6 LEO satellites (down from the initially planned 10) took place on Feb. 28, 2019 • SpaceX launched the first 60 satellites of its Starlink LEO satellite constellation	• Currently about 25% of consumers have access to FTTH • Percent of population per state covered by a fiber network in the U.S. ranges from 2.9% in Connecticut to 84% in Rhode Island
CAPEX DRIVERS	• Local cells/towers (denser than 4G LTE) CAPEX is $2-3K per tower • Backhaul fiber required to connect small cell towers to network infrastructure	• Manufacturing and launch costs are roughly $1.6M per satellite, resulting in an estimated total cost of about $19B for SpaceX's 12K Starlink satellite constellation	• Hardware and physical installation costs are $3K-$8K per household
OPEX DRIVERS	• 5G will not demand significantly higher OPEX compared to 4G but will depend on higher skilled employees to maintain and operate	• OPEX per satellite is expected at roughly $6K per year – for a 12K constellation, this translates to about $75M	• FTTH will not demand significantly higher OPEX compared to non-fiber networks
REGULATORY CONSIDERATIONS	• The FCC launched the 5G FAST Plan to speed up spectrum allocation, infrastructure development, and regulatory changes	• Constellation placement and spectrum allocation regulated by the FCC	• Municipal, state, and federal construction regulations/laws (e.g. laying fiber under streets)
MAIN PLAYERS	verizon, AT&T, T-Mobile, Sprint, NOKIA, ERICSSON, HUAWEI	amazon, iridium, Telesat, Oneweb, STARLINK	AT&T, verizon, FRONTIER TECHNOLOGIES, CROWN CASTLE

activate consulting

Sources: Activate analysis, BroadbandNow, CNET, Company sites, Crown Castle, Federal Communications Commission, LightReading, RCRwireless, TechCrunch

As 5G and LEO satellites roll out, we will see additional developments bridge the gap to continue improving connectivity

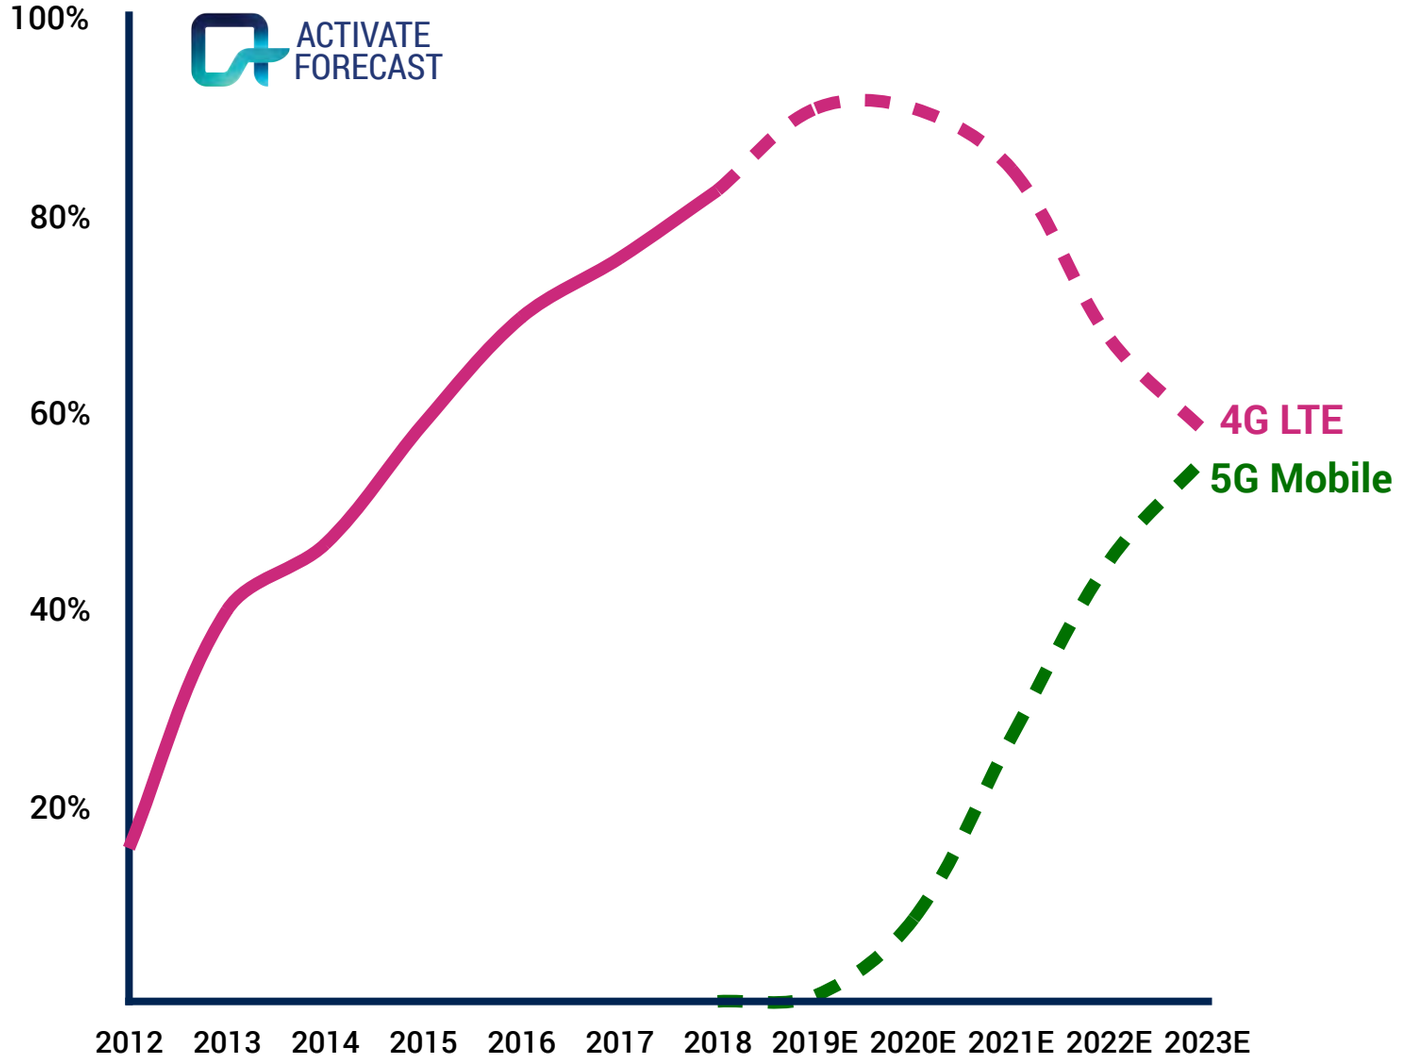

IMPROVEMENT DRIVERS	BRIDGING TECHNOLOGY	IMPLICATIONS	MAJOR PLAYERS
INVESTING MORE IN INFRASTRUCTURE	Backhaul — set of fiber/cables between cell towers and the Internet backbone	• Backhaul fibers are often the weakest link in the connectivity chain, and further growth could improve speeds to up to about 1/5th of 5G, or roughly 300 Mbps	verizon, AT&T, Sprint
	Deep fiber — replacing coaxial cables with faster fiber optics	• Fiber is faster than coax by between 10-100x • Large cable companies are already implementing this	verizon, AT&T, COMCAST Spectrum, COX, CenturyLink
UNLOCKING EXISTING BANDWIDTH	Channel bonding[1] — channels are essentially lanes on a coaxial cable, and bonding unlocks additional bandwidth	• While the latest channel bonding[1] has already been updated with the shift to digital signals, many cable companies have yet to roll out these faster speeds (about 2x faster) • Cable companies will increase speeds for many consumers soon after it becomes advantageous	COMCAST Spectrum, COX, CenturyLink
LAUNCHING SMALL INNOVATORS	Unlicensed spectrum — smaller companies will use parts of the 5G spectrum to offer alternatives to consumers to the largest players	• While they will likely remain small, these companies will help cover the underserved and offer cheaper alternatives (barring regulatory threats)	Monkeybrains.net (Bay Area-based) common_ (N. California-based) STARRY (Licensed to cover 25M households)
ROLLING OUT NEW TECHNOLOGIES	The Wi-Fi 6[2] standards have been finalized, improving speeds by decreasing congestion/lag from multiple devices	• 4x improvement in throughput in dense environments • More secure with WPA3 • Requires Wi-Fi 6-enabled routers and support from end-devices (phones[3], computers), including those of neighbors in range	Google, SAMSUNG, NETGEAR, ASUS, cisco

1. Specifically DOCSIS 3.0 (D3) vs. 2.0 (D2).
2. Also known as 802.11ax.
3. iPhone 11 and Galaxy 10 already support Wi-Fi 6.

Sources: Activate analysis, Ars Technica, Expert Interviews, Intel

Once available, these technologies will see widespread consumer adoption — we project 5G mobile adoption of 55% in the United States by 2023

CONSUMER ADOPTION OF CONNECTIVITY STANDARDS[1], U.S., 2012-2023E, % TOTAL POPULATION

WHAT WOULD YOU HAVE TO BELIEVE?

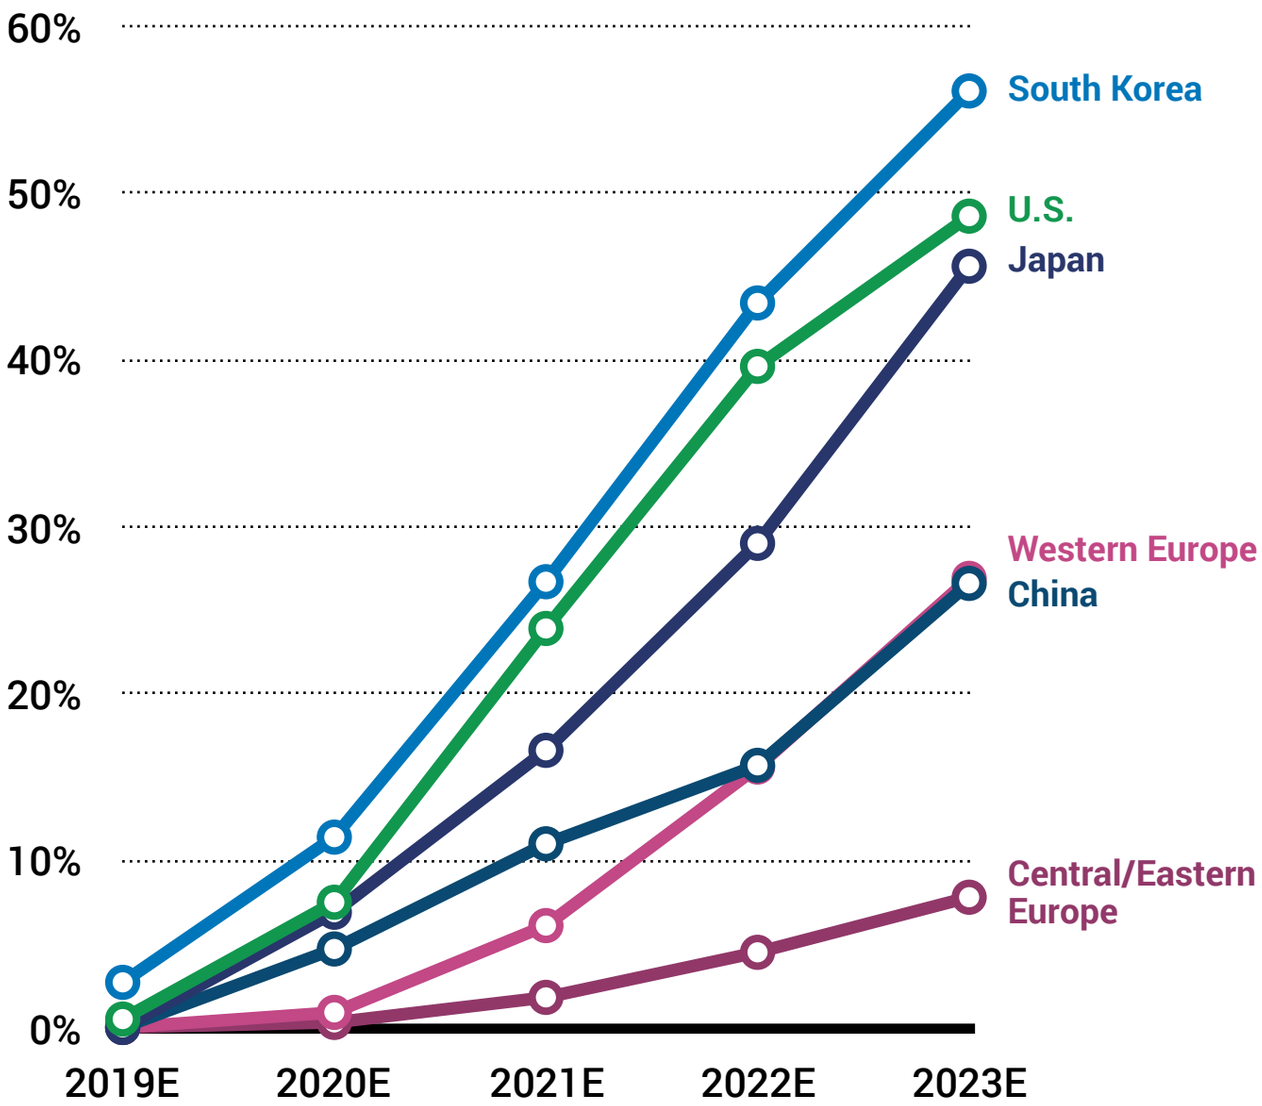

- 5G will largely replace 4G, but **some 4G will remain as a result of network improvements** (e.g. 4G-LTE Pro/A) and will continue to be used in places with lower population density
- A high percentage of **2G/3G subscribers will migrate to 4G** as carriers drop support for older standards
- 5G will initially have a **slower roll-out due to greater infrastructure density requirements** than prior generations of mobile connectivity
- Consumers will **replace their 4G-enabled phones with 5G-enabled phones**, while carriers push 5G over existing 4G LTE networks

activate consulting

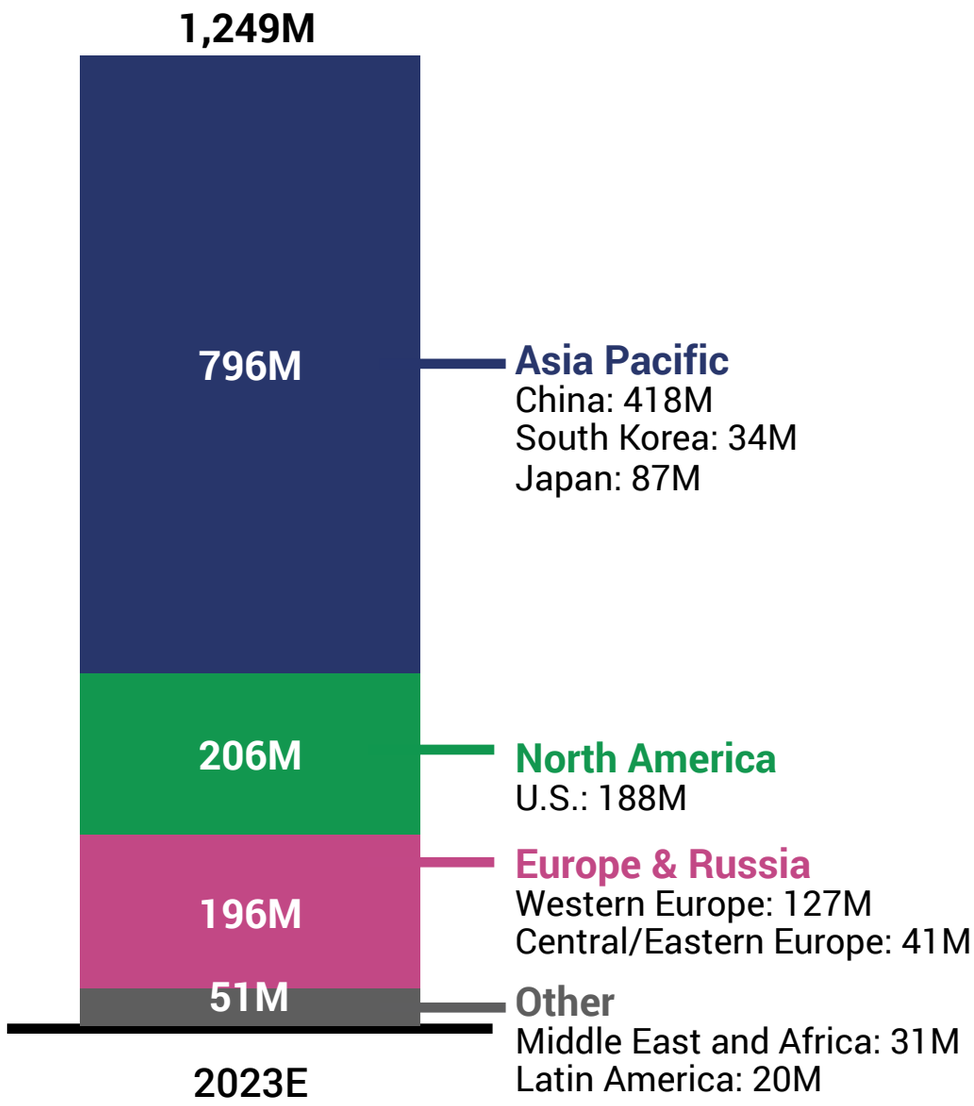

1. 5G Mobile and 4G LTE percentages sum to more than 100% because of people with multiple connections (e.g. personal and work phones).
Sources: Activate analysis, Ars Technica, Expert interviews, Intel

The United States will neither be the fastest adopter nor the largest market — by 2023 we expect China to have roughly the same number of 5G mobile connections as the U.S. and Europe combined

5G CONSUMER MOBILE CONNECTIONS[1] BY GEOGRAPHY, GLOBAL, 2019E-2023E, % TOTAL MOBILE CONNECTIONS

5G CONSUMER MOBILE CONNECTIONS[1] BY GEOGRAPHY, GLOBAL, 2023E, MILLIONS CONNECTIONS

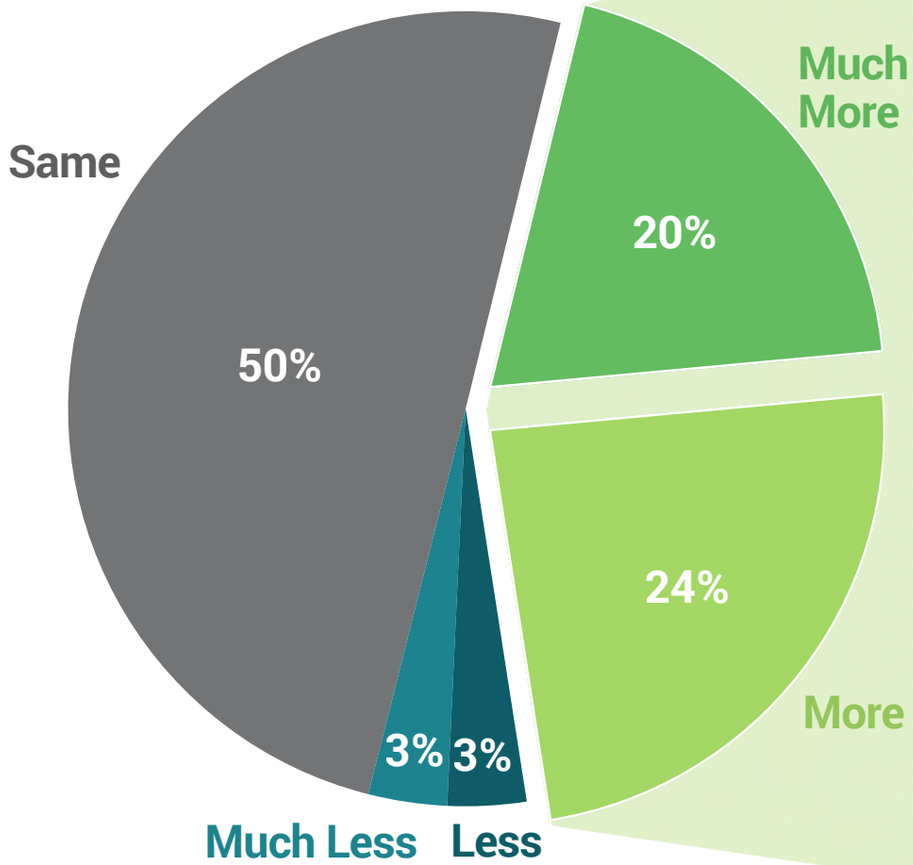

activate consulting

1. SIM connections, excluding IoT.
Sources: Activate analysis, eMarketer, Ericsson, GSMA Intelligence

Consumers and businesses are increasingly concerned about security risks, which will only increase with greater complexity in connectivity — we expect to see security companies gain more scale

CONCERN FOR DIGITAL SECURITY RELATIVE TO LAST YEAR, U.S., 2019, % ADULTS AGED 18+

THE VULNERABILITIES WILL BE THE SAME, BUT MORE NUMEROUS

- More access points for hackers to target
- Additional hand-off points between different connections
- More standards to maintain to eliminate exploits

ENTERPRISE SECURITY COMPANIES HAVE RAISED SIGNIFICANT FUNDS

CLOUDFLARE	(IPO with ~$4.7B Market Cap[1])
CROWDSTRIKE	(Raised $481M)
hackerone	(Raised >$110M)
CYLANCE	(Raised ~$300M)

Activate growth.
Own the future.

Technology. Internet. Media. Entertainment. These are the industries we've shaped, but the future is where we live.

Activate Consulting helps technology and media companies drive revenue growth, identify new strategic opportunities, and position their businesses for the future.

As the leading management consulting firm for these industries, we know what success looks like because we've helped our clients achieve it in the key areas that will impact their top and bottom lines:

- Strategy
- Customer acquisition
- Pricing optimization
- Marketing effectiveness
- Salesforce activation
- Go-to-Market strategy
- Digital strategy
- Building new digital businesses
- Strategic due diligence
- M&A-led growth

Together, we can help you grow faster than the market and smarter than the competition.
